Independent Auditor's Report

Independent auditor's report to Coca-Cola HBC AG

Report on the audit of the consolidated financial statements

Our opinion

In our opinion, Coca-Cola HBC AG's (the "Company") consolidated financial statements give a true and fair view of the consolidated financial position of the Company and its subsidiaries (together the "Group") as at 31 December 2016, and of its consolidated financial performance and its consolidated cash flows for the year then ended in accordance with International Financial Reporting Standards (IFRSs) as issued by the International Accounting Standards Board (IASB).

What we have audited

Coca-Cola HBC AG's consolidated financial statements included within the 2016 Integrated Annual Report comprise:

- the consolidated balance sheet as at 31 December 2016;
- the consolidated income statement for the year then ended;
- the consolidated statement of comprehensive income for the year then ended;
- the consolidated statement of changes in equity for the year then ended;
- the consolidated cash flow statement for the year then ended; and
- the notes to the consolidated financial statements, which include a summary of significant accounting policies.

Basis for opinion

We conducted our audit in accordance with International Standards on Auditing (ISAs). Our responsibilities under those standards are further described in the Auditor's responsibilities for the audit of the consolidated financial statements section of our report.

We believe that the audit evidence we have obtained is sufficient and appropriate to provide a basis for our opinion.

Independence

We are independent of the Group in accordance with applicable laws and regulations regarding independence relevant to our audit of the consolidated financial statements, including the International Ethics Standards Board for Accountants' Code of Ethics for Professional Accountants (IESBA Code). We have also fulfilled our other ethical responsibilities in accordance with these requirements.

Our audit approach

Overview

- Overall group materiality: €22.9 million, which represents 5% of profit before tax.
- We audited the complete financial information of the Company and of subsidiary undertakings in 14 countries.
- Taken together, the undertakings of which an audit of their complete financial information was performed accounted for 83% of consolidated net sales revenue, 89% of consolidated profit before tax and 85% of consolidated total assets of the Group.
- We also conducted specific audit procedures and analytical review procedures for other Group undertakings and functions.

Key audit matters comprised:

- Goodwill and indefinite-lived intangible assets impairment assessment.
- Uncertain tax positions.
- Provisions and contingent liabilities.

As part of designing our audit, we determined materiality and assessed the risks of material misstatement in the consolidated financial statements. In particular, we looked at where the Directors made subjective judgements; for example, in respect of significant accounting estimates that involved making assumptions and considering future events that are inherently uncertain. As in all of our audits, we also addressed the risk of management override of internal controls, including among other matters consideration of whether there was evidence of bias by the Directors that represented a risk of material misstatement due to fraud.

Independent Auditor's Report continued

Materiality

The scope of our audit was influenced by our application of materiality. An audit is designed to obtain reasonable assurance whether the financial statements are free from material misstatement. Misstatements may arise due to fraud or error. They are considered material if individually or in aggregate, they could reasonably be expected to influence the economic decisions of users taken on the basis of the consolidated financial statements.

Based on our professional judgement, we determined certain quantitative thresholds for materiality, including the overall group materiality for the consolidated financial statements as a whole as set out in the table below. These, together with qualitative considerations, helped us to determine the scope of our audit and the nature, timing and extent of our audit procedures and to evaluate the effect of misstatements, both individually and in aggregate, on the financial statements as a whole.

Overall group materiality	€22.9 million (2015: €17.8 million)
How we determined it	5% of profit before tax
Rationale for the materiality benchmark applied	We chose profit before tax as the benchmark because, in our view, it is one of the principal measures considered by users, and is a generally accepted benchmark. We chose 5% which is within the range of acceptable quantitative materiality thresholds in generally accepted auditing practice.

We agreed with the Audit and Risk Committee that we would report to them misstatements identified during our audit above €1.0 million as well as misstatements below that amount that, in our view, warranted reporting for qualitative reasons.

Key audit matters

Key audit matters are those matters that, in our professional judgement, were of most significance in our audit of the consolidated financial statements of the current period. These matters were addressed in the context of our audit of the consolidated financial statements as a whole, and in forming our opinion thereon, and we do not provide a separate opinion on these matters.

Key audit matter	How our audit addressed the key audit matter
<p>Goodwill and indefinite-lived intangible assets impairment assessment</p> <p>Refer to Note 13 for intangible assets including goodwill.</p> <p>Goodwill and indefinite-lived intangible assets as at 31 December 2016 amount to €1,671.9 million and €206.4 million, respectively.</p> <p>The above noted amounts have been allocated to individual cash-generating units ('CGUs'). The impairment assessment is performed at least annually and relies on the calculation of a value-in-use for each CGU.</p> <p>This area was a key matter for our audit due to the size of goodwill and indefinite-lived intangible assets and because the determination of whether elements of goodwill and of indefinite-lived intangible assets are impaired involves complex and subjective estimates and judgements by management about the future results of the CGUs. These estimates and judgements include assumptions surrounding revenue growth rates, input costs, foreign exchange rates and discount rates.</p> <p>Furthermore, macroeconomic volatility, competitor activity and regulatory/fiscal developments can adversely affect each CGU and potentially the carrying amount of goodwill and indefinite-lived intangible assets.</p> <p>No impairment charge was recorded in 2016. We note however, that goodwill and indefinite-lived intangible assets held by Multon ZAO CGU and the Nigeria CGU remain sensitive to changes in the key drivers of cash flow forecasts given the macroeconomic volatility in Russia and Nigeria respectively.</p>	<p>We evaluated the process by which management prepared the CGU value-in-use calculations and compared them to the latest budget approved by the Board of Directors. We assessed the quality of the budgeting process by comparing the prior year budget with actual data. No material exceptions were noted from our evaluation.</p> <p>Deploying our valuation specialists, we challenged management's analysis around the key drivers of cash flow forecasts including price increases, short-term and long-term volume growth and the level of input costs by comparing them with either the Group's historical information or market data, as appropriate. We also evaluated the appropriateness of other key assumptions including discount rates and foreign exchange rates by comparing them to relevant market data. We found the assumptions to be consistent and in line with our expectations.</p> <p>We also performed sensitivity analyses on the key drivers of cash flow forecasts for the CGUs with significant balances of goodwill and indefinite-lived intangible assets as well as for CGUs with marginal headroom, including the goodwill and indefinite-lived intangible assets held by Multon ZAO CGU and the Nigeria CGU.</p> <p>As a result of our work, we found that the determination by management that no impairment was required for goodwill and indefinite-lived intangible assets was supported by reasonable assumptions. Management has furthermore disclosed relevant sensitivity analyses in Note 13.</p>

Key audit matter

Uncertain tax positions

Refer to Note 10 for taxation and Note 28 for contingencies.

The Group operates in a complex multinational tax environment which gives rise to uncertain tax positions in relation to corporation tax, transfer pricing and indirect taxes.

Given the number of judgements involved in estimating the provisions relating to uncertain tax positions and the complexities of dealing with tax rules and regulations in numerous jurisdictions, this was considered as a key audit matter.

How our audit addressed the key audit matter

In conjunction with our tax specialists, we evaluated management's judgements in respect of estimates of tax exposures and contingencies in order to assess the adequacy of the Group's tax provisions.

In order to understand and evaluate management's judgements, we considered the status of current tax authority audits and enquiries, the outcome of previous tax authority audits, judgemental positions taken in tax returns and current year estimates and recent developments in the tax environments in which the Group operates. From the evidence obtained and in the context of the consolidated financial statements, taken as a whole, we consider the provisions in relation to uncertain tax positions as at 31 December 2016 to be appropriate.

Provisions and contingent liabilities

Refer to Note 20 for provisions and Note 28 for contingencies.

The Group faces a number of threatened and actual legal and regulatory proceedings. The level of provisioning and/or the level of disclosure required involves a high level of judgement resulting in provisions and contingent liabilities being considered as a key audit matter.

We evaluated the design and implementation of controls in respect of litigation and regulatory procedures, and no material exceptions were noted.

Our procedures included the following:

- where relevant, reading external legal advice obtained by management;
- discussing open matters with the Group general counsel;
- meeting with local management and reading subsequent correspondence;
- assessing and challenging management's conclusions through understanding precedents set in similar cases; and
- circularising relevant third-party legal representatives and follow up discussions, where appropriate, on certain material cases.

Based on the evidence obtained, whilst noting the inherent uncertainty with such legal and regulatory matters, we determined the level of provisioning as at 31 December 2016 to be appropriate.

We assessed the appropriateness of the related disclosures in Note 28 and considered these to be reasonable.

How we tailored our group audit scope

We tailored the scope of our audit in order to perform sufficient work to enable us to provide an opinion on the consolidated financial statements as a whole, taking into account the geographic structure of the Group, the accounting processes and controls, and the industry in which the Group operates.

The Group operates through its trading subsidiary undertakings in 28 countries, as set out on page 122 of the 2016 Integrated Annual Report. The processing of the accounting entries for these entities is largely centralised in a shared services centre in Bulgaria, except for the subsidiary undertakings in Russia, Ukraine, Belarus and Armenia, which process their accounting entries locally. The Group also operates a centralised treasury function in the Netherlands and in Greece and a centralised procurement function in Austria. We considered the nature of the work that needed to be performed on these entities and functions by us, as the group engagement team and by component auditors from other PwC network firms. Where work was performed by component auditors, we determined the level of involvement we needed to have in the audit work at those entities or functions to be able to conclude whether appropriate audit evidence had been obtained as a basis for our opinion on the consolidated financial statements as a whole.

Based on the financial significance to the consolidated financial statements and in light of the key audit matters as noted above, we identified subsidiary undertakings in 14 countries (including the trading subsidiary undertakings in Russia, Nigeria and Italy) which in our view, required an audit of their complete financial information. Furthermore, the Company's complete financial information was subject to audit. Specific audit procedures on certain balances and transactions were also performed on subsidiary undertakings in 3 countries, 1 joint venture and the corporate service centres in Greece and Austria. In addition, audit procedures were performed with respect to the centralised treasury function by the group engagement team and by the component audit team in Austria as regards to the centralised procurement function. The group engagement team also performed analytical review and other procedures on balances and transactions of subsidiary undertakings not covered by the procedures described above.

Independent Auditor's Report continued

Our group engagement team's involvement with respect to audit work performed by component auditors included site visits (to Russia, Nigeria, Italy, Switzerland, Romania, Bulgaria and Greece), conference calls with component audit teams, meetings with local management, review of component auditor work papers, attendance at component audit clearance meetings, and other forms of interactions as considered necessary depending on the significance of the component and the extent of accounting and audit issues arising. The group engagement team was also responsible for planning, designing and overseeing the audit procedures performed at the shared services centre in Bulgaria. The Group consolidation, financial statement disclosures and a number of areas of significant judgement, including goodwill and intangible assets, material provisions and contingent liabilities, were audited by the group engagement team. We also performed work centrally on IT general controls. We held a two-day audit planning workshop in Greece focusing on planning and risk assessment activities. This audit planning workshop was attended by the component teams responsible for the subsidiaries requiring an audit of their complete financial information.

Based on the above, the undertakings of which an audit of their complete financial information was performed accounted for 83% of consolidated net sales revenue, 89% of consolidated profit before tax and 85% of consolidated total assets of the Group.

Other information

The Directors are responsible for the other information. The other information comprises Coca-Cola HBC AG's 2016 Integrated Annual Report (but does not include the consolidated financial statements and our auditor's report thereon), which we obtained prior to the date of this auditor's report.

Our opinion on the consolidated financial statements does not cover the other information and we do not express any form of assurance conclusion thereon.

In connection with our audit of the consolidated financial statements, our responsibility is to read the other information identified above and, in doing so, consider whether the other information is materially inconsistent with the consolidated financial statements or our knowledge obtained in the audit, or otherwise appears to be materially misstated.

If, based on the work we have performed, we conclude that there is a material misstatement of this other information, we are required to report that fact. We have nothing to report in this regard.

Responsibilities of the Directors for the consolidated financial statements

As explained more fully in the Statement of Directors' Responsibilities set out in the 2016 Integrated Annual Report on page 107, the Directors are responsible for the preparation of the consolidated financial statements and for being satisfied that they give a true and fair view, and for such internal control as the Directors determine is necessary to enable the preparation of consolidated financial statements that are free from material misstatement, whether due to fraud or error.

Auditor's responsibilities for the audit of the consolidated financial statements

Our objectives are to obtain reasonable assurance about whether the consolidated financial statements as a whole are free from material misstatement, whether due to fraud or error, and to issue an auditor's report that includes our opinion. Reasonable assurance is a high level of assurance, but is not a guarantee that an audit conducted in accordance with ISAs will always detect a material misstatement when it exists. Misstatements can arise from fraud or error and are considered material if, individually or in the aggregate, they could reasonably be expected to influence the economic decisions of users taken on the basis of these consolidated financial statements.

As part of an audit in accordance with ISAs, we exercise professional judgement and maintain professional scepticism throughout the audit. We also:

- Identify and assess the risks of material misstatement of the consolidated financial statements, whether due to fraud or error, design and perform audit procedures responsive to those risks, and obtain audit evidence that is sufficient and appropriate to provide a basis for our opinion. The risk of not detecting a material misstatement resulting from fraud is higher than for one resulting from error, as fraud may involve collusion, forgery, intentional omissions, misrepresentations, or the override of internal control.
- Obtain an understanding of internal control relevant to the audit in order to design audit procedures that are appropriate in the circumstances, but not for the purpose of expressing an opinion on the effectiveness of the Group's internal control.
- Evaluate the appropriateness of accounting policies used and the reasonableness of accounting estimates and related disclosures made by the Directors.
- Conclude on the appropriateness of the Directors' use of the going concern basis of accounting and, based on the audit evidence obtained, whether a material uncertainty exists related to events or conditions that may cast significant doubt on the Group's ability to continue as a going concern. If we conclude that a material uncertainty exists, we are required to draw attention in our auditor's report to the related disclosures in the consolidated financial statements or, if such disclosures are inadequate, to modify our opinion. Our conclusions are based on the audit evidence obtained up to the date of our auditor's report. However, future events or conditions may cause the Group to cease to continue as a going concern.

- Evaluate the overall presentation, structure and content of the consolidated financial statements, including the disclosures, and whether the consolidated financial statements represent the underlying transactions and events in a manner that achieves fair presentation.
- Obtain sufficient appropriate audit evidence regarding the financial information of the entities or business activities within the Group to express an opinion on the consolidated financial statements. We are responsible for the direction, supervision and performance of the group audit. We remain solely responsible for our audit opinion.

We communicate with those charged with governance regarding, among other matters, the planned scope and timing of the audit and significant audit findings, including any significant deficiencies in internal control that we identify during our audit. Those charged with governance are responsible for overseeing the Group's financial reporting process.

We also provide those charged with governance with a statement that we have complied with relevant ethical requirements regarding independence, and to communicate with them all relationships and other matters that may reasonably be thought to bear on our independence, and where applicable, related safeguards.

From the matters communicated with those charged with governance, we determine those matters that were of most significance in the audit of the consolidated financial statements of the current period and are therefore the key audit matters. We describe these matters in our auditor's report unless law or regulation precludes public disclosure about the matter or when, in extremely rare circumstances, we determine that a matter should not be communicated in our report because the adverse consequences of doing so would reasonably be expected to outweigh the public interest benefits of such communication.

This report, including the opinion, has been prepared for and only for Coca-Cola HBC AG for the purpose of the Disclosure Guidance and Transparency Rules sourcebook and the Listing Rules of the Financial Conduct Authority and for no other purpose.

Report on other legal and regulatory requirements

Matters on which we are required to report by exception

Under the Listing Rules we are required to review the part of the Corporate Governance section relating to the Company's compliance with 11 provisions of the UK Corporate Governance Code (the "Code"). We have nothing to report having performed our review.

Other matters

We have reviewed the statement on going concern, included in the Statement of Directors' Responsibilities, in Coca-Cola HBC AG's 2016 Integrated Annual Report on page 107, as if the Company were a UK incorporated premium listed entity. We have nothing to report having performed our review.

As noted in the Statement of Directors' Responsibilities, the Directors have concluded that it is appropriate to prepare the consolidated financial statements using the going concern basis of accounting. The going concern basis presumes that the Group has adequate resources to remain in operation, and that the Directors intend it to do so, for at least one year from the date the consolidated financial statements were signed. As part of our audit we have concluded that the Directors' use of the going concern basis is appropriate.

However, because not all future events or conditions can be predicted, these statements are not a guarantee as to the Group's ability to continue as a going concern.

We have also reviewed the Directors' statement in relation to the longer-term viability of the Group, set out on page 59, of the Coca-Cola HBC AG's 2016 Integrated Annual Report as if the Company were a UK incorporated premium listed entity. Our review was substantially less in scope than an audit and only consisted of making inquiries and considering the Directors' process supporting their statement; checking that the statement is in alignment with the relevant provisions of the Code; and considering whether the statement is consistent with the knowledge acquired by us in the course of performing our audit. We have nothing to report having performed our review.

The accompanying notes form an integral part of these consolidated financial statements.

Notes to the Consolidated Financial Statements

1. Description of business

Coca-Cola HBC AG and its subsidiaries (the 'Group' or 'Coca-Cola HBC' or 'the Company') are principally engaged in the production, sales and distribution of non-alcoholic ready-to-drink beverages, under franchise from The Coca-Cola Company. The Company distributes its products in 27 countries in Europe and Nigeria. Information on the Company's operations by segment is included in Note 6.

On 11 October 2012, Coca-Cola HBC, a Swiss stock corporation (Aktiengesellschaft/Société Anonyme) incorporated by Kar-Tess Holding (a related party of the Group, see Note 26), announced a voluntary share exchange offer to acquire all outstanding ordinary registered shares and all American depositary shares of Coca-Cola Hellenic Bottling Company S.A. As a result of the successful completion of this offer, on 25 April 2013 Coca-Cola HBC acquired 96.85% of the issued Coca-Cola Hellenic Bottling Company S.A. shares, including shares represented by American depositary shares, and became the new parent company of the Group. On 17 June 2013, Coca-Cola HBC completed its statutory buy-out of the remaining shares of Coca-Cola Hellenic Bottling Company S.A. that it did not acquire upon completion of its voluntary share exchange offer. Consequently, Coca-Cola HBC acquired 100% of Coca-Cola Hellenic Bottling Company S.A. which was eventually delisted from the Athens Exchange, from the London Stock Exchange where it had a secondary listing and from the New York Stock Exchange where American depositary shares were listed.

The shares of Coca-Cola HBC started trading in the premium segment of the London Stock Exchange (Ticker symbol: CCH), on the Athens Exchange (Ticker symbol: EEE) and regular way trading in Coca-Cola HBC ADS commenced on the New York Stock Exchange (Ticker symbol: CCH) on 29 April 2013. On 24 July 2014 the Group proceeded to the delisting of its American Depositary Receipts from the New York Stock Exchange and terminated its reporting obligations under the US Securities Exchange Act of 1934. The deregistration of Coca-Cola HBC shares under the US Securities Exchange Act of 1934 and the termination of its reporting obligations became effective on 3 November 2014.

2. Basis of preparation and consolidation

Basis of preparation

The consolidated financial statements included in this document are prepared in accordance with International Financial Reporting Standards ('IFRS') as issued by the International Accounting Standards Board ('IASB').

The consolidated financial statements are prepared on a going concern basis under the historical cost convention, as modified by the revaluation of available-for-sale financial assets and derivative financial instruments.

These consolidated financial statements were approved for issue by the Board of Directors on 16 March 2017 and are expected to be verified at the Annual General Meeting to be held on 20 June 2017.

The structure of the consolidated financial statements has been revised with the objective of being more effective in permitting the users to identify relevant information more easily. As well as re-ordering the notes, significant accounting policies, judgements, key estimates and assumptions, as well as related qualitative and quantitative disclosures, have been presented together in the same note in order to provide a more holistic discussion to the users of the financial statements.

Basis of consolidation

Subsidiary undertakings are those companies over which the Group, directly or indirectly, has control. The Group controls an entity when the Group is exposed to, or has rights to, variable returns from its involvement with the entity and has the ability to affect those returns through power over the entity. Subsidiary undertakings are consolidated from the date on which control is transferred to the Group and cease to be consolidated from the date on which control is transferred out of the Group.

Transactions with non-controlling interests that do not result in loss of control are accounted for as equity transactions that is, as transactions with the owners in their capacity as owners. The difference between fair value of any consideration paid and the relevant share acquired of the carrying value of net assets of the subsidiary is recorded in equity.

Inter-company transactions and balances between Group companies are eliminated. The subsidiaries' accounting policies are consistent with policies adopted by the Group.

When the Group ceases to have control, any retained interest in the entity is remeasured to its fair value at the date when such control is lost, with the change in carrying amount recognised in the income statement. The fair value is the initial carrying amount for the purposes of subsequently accounting for the retained interest as an associate, joint venture or financial asset. In addition, any amounts previously recognised in other comprehensive income in respect of that entity are accounted for as if the Group had directly disposed of the related assets or liabilities. This may mean that amounts previously recognised in other comprehensive income are reclassified to the income statement.

3. Foreign currency and translation

The individual financial statements of each Group entity are presented in the currency of the primary economic environment in which the entity operates (its functional currency). For the purpose of the consolidated financial statements, the results and financial position of each entity are expressed in Euro, which is the presentation currency for the consolidated financial statements.

The assets and liabilities of foreign subsidiaries are translated into Euro at the exchange rate ruling at the balance sheet date. The results of foreign subsidiaries are translated into Euro using the average monthly exchange rate (being a reasonable approximation of the rates prevailing on the transaction dates). The exchange differences arising on translation are recognised in other comprehensive income. On disposal of a foreign entity, accumulated exchange differences are recognised as a component of the gain or loss on disposal.

Transactions in foreign currencies are recorded at the rate ruling at the date of transaction. Monetary assets and liabilities denominated in foreign currencies are remeasured at the rate of exchange ruling at the balance sheet date. All gains and losses arising on remeasurement are included in the income statement, except for exchange differences arising on assets and liabilities classified as cash flow hedges which are deferred in equity until the occurrence of the hedged transaction, at which time they are recognised in the income statement. Share capital denominated in a currency other than the functional currency is initially stated at spot rate of the date of issue but is not retranslated.

The principal exchange rates used for transaction and translation purposes in respect of one Euro are:

	Average 2016	Average 2015	Closing 2016	Closing 2015
US dollar	1.11	1.11	1.04	1.09
UK sterling	0.82	0.72	0.85	0.74
Polish zloty	4.36	4.17	4.40	4.23
Nigerian naira	279.97	215.63	317.95	216.15
Hungarian forint	311.40	309.12	309.22	312.98
Swiss franc	1.09	1.06	1.07	1.08
Russian rouble	74.36	67.67	64.72	78.95
Romanian leu	4.49	4.44	4.54	4.54
Ukrainian hryvnia	28.27	24.52	27.97	26.06
Czech koruna	27.03	27.29	27.02	27.03
Serbian dinar	123.08	120.70	123.30	121.33

4. Accounting pronouncements

a) Accounting pronouncements adopted in 2016

In the current period, the Group has adopted the following standards and amendments which were issued by the IASB, that are relevant to its operations and effective for accounting periods beginning on 1 January 2016:

- Amendments to IFRS 11: Accounting for acquisitions of interests in joint operations
- Annual Improvements to IFRSs: 2012-2014 Cycle
- Amendments to IAS 1: Disclosure initiative

The adoption of these amendments did not have any impact on the current period or any prior period and are not likely to affect future periods.

b) Accounting pronouncements not yet adopted

At the date of approval of these consolidated financial statements, the following standards and interpretations relevant to the Company's operations were issued but not yet effective and not early adopted.

IFRS 15, *Revenue from Contracts with Customers* that will replace IAS 18, which covers contracts for goods and services, and IAS 11, which covers construction contracts. The new standard is based on the principle that revenue is recognised when control of a good or service is transferred to a customer. IFRS 15 is effective for annual periods beginning on or after 1 January 2018. Management has completed an initial impact assessment on areas that might be affected. The areas of focus have been the identification of material rights that should be accounted for as performance obligations, accounting for contract fulfilment costs and variable consideration. Based on the assessment, the Group believes that the adoption of IFRS 15 will not have a significant impact on its consolidated financial statements.

IFRS 9, *Financial Instruments*, which reflects all phases of the financial instruments project and replaces IAS 39, *Financial Instruments: Recognition and Measurement*. The standard introduces new requirements for classification and measurement, impairment, and hedge accounting. IFRS 9 is effective for annual periods beginning on or after 1 January 2018. The new hedge accounting requirements will align the accounting for hedging instruments more closely with the Group's risk management practices and therefore more hedge relationships are expected to be eligible for hedge accounting. Based on a preliminary assessment, it would appear that the Group's current hedge relationships would qualify as continuing hedges upon the adoption of IFRS 9. Furthermore, the Group will assess possible changes related to the application of the new hedge accounting requirements in relation to the accounting treatment to be applied to the forward element of the forward contracts and the future time value of options in more detail in 2017.

Notes to the Consolidated Financial Statements continued

4. Accounting pronouncements continued

IFRS 16, *Leases*. The new standard supersedes IAS 17 and its objective is to ensure that lessees and lessors provide relevant information in a manner that faithfully represents those transactions. IFRS 16 introduces a single lessee accounting model and requires a lessee to recognise assets and liabilities for all leases with a term of more than 12 months, unless the underlying asset is of low value. IFRS 16 is effective for annual periods beginning on or after 1 January 2019. The Group is currently evaluating the impact IFRS 16 will have on its consolidated financial statements.

In addition, the following amendments have been issued by the IASB and are not yet effective. The Group is currently evaluating the impact that these amendments and interpretations will have on its consolidated financial statements:

- Amendments to IAS 12: Recognition of deferred tax assets for unrealised losses
- Amendments to IAS 7: Disclosure initiative
- Amendments to IFRS 2: Classification and measurement of share-based payment transactions
- IFRIC 22 Foreign currency transactions and advance consideration
- Annual Improvements to IFRSs 2014 (2014–2016 Cycle)

5. Critical accounting estimates and judgements

In conformity with IFRS, the preparation of the consolidated financial statements for Coca-Cola HBC requires management to make estimates and judgements that affect the reported amounts of assets, liabilities, revenues and expenses, and the disclosure of contingent assets and liabilities in the consolidated financial statements and accompanying notes. Although these estimates and judgements are based on management's knowledge of current events and actions that may be undertaken in the future, actual results may ultimately differ from estimates.

Estimates

- Income taxes (refer to Note 10)
- Impairment of goodwill and indefinite-lived intangible assets (refer to Note 13)
- Employee benefits – defined benefit pension plans (refer to Note 20)

Judgements

- Joint arrangements (refer to Note 15)

6. Segmental analysis

The Group has one business, being the production, sale and distribution of ready-to-drink, primarily non-alcoholic, beverages. The Group operates in 28 countries which are aggregated in reportable segments as follows:

The Group's operations in each of the three reportable segments have been aggregated on the basis of their similar economic characteristics, assessed by reference to their net sales revenue per unit case as well as disposable income per capita, exposure to political and economic volatility, regulatory environments, customers and distribution infrastructures. The accounting policies of the reportable segments are the same as those adopted by the Group. The Group's chief operating decision maker is its Operating Committee, which evaluates performance and allocates resources based on volume, net sales revenue and operating profit.

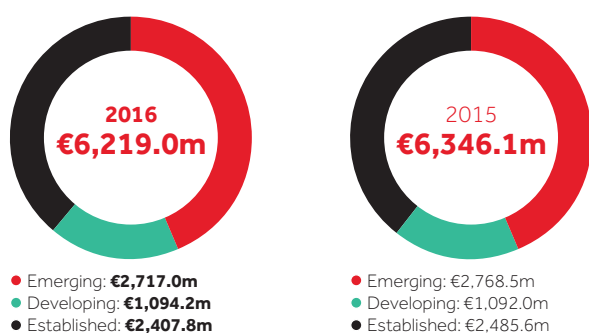

a) Volume and net sales revenue

The Group sales volume in million unit cases¹ for the years ended 31 December was as follows:

	2016	2015
Established	606.6	621.1
Developing	383.5	378.7
Emerging	1,067.8	1,055.2
Total volume	2,057.9	2,055.0

1. One unit case corresponds to approximately 5.678 litres or 24 servings, being a typically used measure of volume. Volume data is derived from unaudited operational data.

Net sales revenue per reportable segment for the years ended 31 December is presented in the graphs below:

There are no material amounts of sales or transfers between the Group's segments nor are there any customers who represent more than 10% of net sales revenue for the Group.

In addition to non-alcoholic, ready-to-drink beverages ("NARTD"), the Group sells and distributes premium spirits. An analysis of volume and net sales revenue per product type for the years ended 31 December is presented below:

	2016 € million ¹	2015 € million ¹
Volume in million unit cases ²		
NARTD ³	2,055.5	2,052.6
Premium spirits ²	2.4	2.4
Total volume	2,057.9	2,055.0
Net sales revenue		
NARTD	6,040.6	6,164.3
Premium spirits	178.4	181.8
Total net sales revenue	6,219.0	6,346.1

1. Excluding volume, which is reported in unit cases.

2. One unit case corresponds to approximately 5.678 litres or 24 servings, being a typically used measure of volume. Volume data is derived from unaudited operational data. For premium spirits volume, one unit case corresponds to 5.678 litres.

3. NARTD: non-alcoholic, ready-to-drink beverages.

Net sales revenue from external customers attributed to Switzerland (the Group's country of domicile), Russia, Italy and Nigeria was as follows for the years ended 31 December:

	2016 € million	2015 € million
Switzerland	423.6	447.0
Russia	983.0	1,039.3
Italy	897.7	919.3
Nigeria	583.3	621.6
All countries, other than Switzerland, Russia, Italy and Nigeria	3,331.4	3,318.9
Total net sales revenue from external customers	6,219.0	6,346.1

Total amortisation of intangible assets	13	(0.4)	(0.4)

4. Corporate refers to holding, finance and other non-operating subsidiaries of the Group.

c) Other items

The balance of non-current assets attributed to Switzerland (the Group's country of domicile), Russia, Italy and Nigeria was as follows for the years ended 31 December:

Non-current assets⁵	2016 € million	2015 € million
Switzerland	546.0	554.6
Russia	578.0	482.0
Italy	990.7	1,004.1
Nigeria	439.9	584.9
All countries, other than Switzerland, Russia, Italy and Nigeria	1,759.3	1,860.1
Total non-current assets⁵	4,313.9	4,485.7

5. Excluding financial instruments, equity method investments and deferred tax assets.

Expenditure of property, plant and equipment per reportable segment was as follows for the years ended 31 December:

	2016 € million	2015 € million
Established	94.7	76.3
Developing	44.3	34.5
Emerging	208.8	220.7
Total expenditure of property, plant and equipment	347.8	331.5

In mid-June 2016 the naira was significantly devalued against the Euro, resulting in a foreign currency translation loss of €196.8 million which was recognised within other comprehensive income of the consolidated statement of comprehensive income (refer to Note 12). In spite of the devaluation, as a result of further pressures in the economy, the official naira rate may once again not be reflecting the supply and demand rate for the currency, which may result in further volatility in the local currency. The Group is continuously monitoring the situation in Nigeria in order to ensure that timely actions and initiatives are undertaken to minimise potential adverse impact on its performance.

Tensions and market changes in Ukraine and the Russian Federation that have adversely impacted the economies of these countries and, among other things, have resulted in increased volatility in currency markets, causing the Russian rouble and the Ukrainian hryvnia to depreciate significantly against some major currencies, seem to be subsiding. Although Russia is showing signs of stabilisation of the economic environment, we continue to monitor and assess the situation in the area so as to minimise potential adverse impact on the Company's performance.

The macroeconomic and financial environment in Greece remains fragile. The continued instability of the Greek banking sector, the continuation of capital controls restricting the movement of funds out of Greece and the ongoing need for austerity measures may further impact consumers' disposable income which may adversely affect the Group's operations in Greece. Our 2016 revenue from our operations in Greece amounted to 6% of consolidated net sales revenue and as at 31 December 2016 non-current assets amounted to 4% of the consolidated non-current assets. We are continuously monitoring developments in Greece.

Notes to the Consolidated Financial Statements continued

7. Net sales revenue**Accounting policy**

Net sales revenue is recognised when all of the following conditions are met: when the amount of revenue can be reliably measured; when it is probable that future economic benefits will flow to the Group; and when the significant risks and rewards of ownership of the products have passed to the buyer, usually on delivery of goods.

Net sales revenue is measured at the fair value of the consideration received or receivable and is stated net of sales discounts, as well as listing fees and marketing and promotional incentives provided to customers. Net sales revenue includes excise and other duties where the Group pays as principal but excludes amounts collected on behalf of third parties, such as value added taxes. Listing fees are incentives provided to customers for carrying the Group's products in their stores. Listing fees that are subject to contract-based term arrangements are capitalised and amortised over the term of the contract as a reduction to revenue. All other listing fees as well as marketing and promotional incentives are a reduction of revenue as incurred.

Coca-Cola HBC receives contributions from The Coca-Cola Company in order to promote sales of their brands. Contributions for price support, marketing and promotional campaigns in respect of specific customers are recognised as an offset to promotional incentives provided to those customers to which the contributions contractually relate. These contributions are accrued and matched to the expenditure to which they relate (refer to Note 26).

Refer to Note 6 for an analysis of net sales revenue per reportable segment.

Listing fees and marketing and promotional incentives provided to customers recognised as a reduction to net sales revenue for the years ended 31 December are presented below:

	2016	2015
	€ million	€ million
Listing fees	485.9	516.8
Marketing and promotional incentives	216.6	174.9
Total listing fees, marketing and promotional incentives	702.5	691.7

The amount of listing fees capitalised at 31 December 2016 was €11.0m (31 December 2015: €10.6m). Of this balance, €7.9m (31 December 2015: €9.2m) was classified as current prepayments and the remainder as non-current prepayments.

8. Operating expenses**Accounting policy**

Restructuring expenses are recorded in a separate line item within operating expenses and comprise costs arising from significant changes in the way the Group conducts its business such as significant supply chain infrastructure changes, outsourcing of activities and centralisation of processes. Redundancy provisions are recognised only when the Group has a present constructive obligation, which is when a detailed formal plan identifies the business or part of the business concerned, the location and number of employees affected, a detailed estimate of the associated costs, as well as an appropriate timeline and the employees affected have been notified of the plan's main features.

a) Operating expenses

Operating expenses for the year ended 31 December comprised:

	2016	2015
	€ million	€ million
Selling expenses	869.9	851.8
Delivery expenses	483.1	531.7
Administrative expenses	401.8	471.7
Restructuring expenses	37.7	54.0
Operating expenses	1,792.5	1,909.2

In 2016, operating expenses included net gains on disposal of property, plant and equipment of €2.9m (2015: €1.8m net losses).

Restructuring expenses

As part of the effort to optimise its cost base and sustain competitiveness in the marketplace, the Company undertakes restructuring initiatives. The restructuring concerns mainly employees' costs and impairment of property, plant and equipment (refer to Note 14). Restructuring expenses per reportable segment for the years ended 31 December are presented below:

b) Employee costs

Employee costs for the years ended 31 December comprised:

	2016 € million	2015 € million
Wages and salaries	707.1	760.8
Social security costs	143.0	151.5
Pension and other employee benefits	112.8	131.3
Termination benefits	21.1	26.2
Total employee costs	984.0	1,069.8

The average number of full-time equivalent employees in 2016 was 31,083 (2015: 33,311).

Employee costs for 2016 included in operating expenses and cost of goods sold amounted to €746.2m and €237.8m respectively (2015: €814.1m and €255.7m respectively)

c) Directors' and senior management remuneration

The total remuneration paid or accrued for Directors and the senior management team for the years ended 31 December comprised:

	2016 € million	2015 € million
Salaries and other short-term benefits	18.7	12.3
Stock option and performance share awards	4.9	5.1
Pension and post-employment benefits	0.8	0.8
Total remuneration	24.4	18.2

d) Fees and other services of the auditor

Audit and other fees charged in the income statement concerning the auditor of the consolidated financial statements, PricewaterhouseCoopers S.A. and affiliates, were as follows, for the years ended 31 December:

	2016 € million	2015 € million
Audit fees	4.5	5.0
Audit-related fees	0.4	0.5
Other fees	0.2	0.1
Total audit and all other fees	5.1	5.6

Notes to the Consolidated Financial Statements continued

9. Finance costs, net**Accounting policy**

Interest income and interest expense are recognised using the effective interest rate method, and are recorded in the income statement within 'Finance income' and 'Finance costs' respectively.

Finance costs, net for the years ended 31 December comprised:

	2016 € million	2015 € million
Interest income	7.4	9.5
Interest expense	(60.6)	(59.4)
Other finance costs	(1.4)	(1.9)
Net foreign exchange remeasurement losses	–	(7.5)
Finance charges incurred with respect to finance leases	(7.7)	(8.9)
Finance costs	(69.7)	(77.7)
Finance costs, net	(62.3)	(68.2)

Other finance costs include commitment fees on loan facilities, not drawn down and other similar fees.

10. Taxation**Accounting policy**

Tax is recognised in the income statement, except to the extent that it relates to items recognised in other comprehensive income or in equity. In this case, the tax is recognised in other comprehensive income or directly in equity.

The current income tax expense is calculated on the basis of the tax laws enacted or substantively enacted at the balance sheet date in the countries where the Group operates and generates taxable income. Management periodically evaluates positions taken in tax returns with respect to situations in which applicable tax regulations are subject to interpretation and establishes provisions, where appropriate, on the basis of amounts expected to be paid to the tax authorities.

Deferred tax is provided using the liability method for all temporary differences arising between the tax bases of assets and liabilities and their carrying values for financial reporting purposes. However, the deferred tax liabilities are not recognised if they arise from the initial recognition of goodwill; deferred tax is not accounted for if it arises from initial recognition of an asset or liability in a transaction other than a business combination that at the time of the transaction affects neither accounting nor taxable profit or loss. Tax rates enacted or substantively enacted at the balance sheet date are those that are expected to apply when the deferred tax asset is realised or deferred tax liability is settled.

Deferred tax assets are recognised to the extent that it is probable that future taxable profit will be available against which the temporary differences can be utilised. Deferred tax assets are recognised for tax losses carry-forward to the extent that realisation of the related tax benefit through the reduction of future taxes is probable.

Deferred tax is provided on temporary differences arising on investments in subsidiaries, associates and joint ventures, except where the timing of the reversal of the temporary difference can be controlled by the Group, and it is probable that the temporary difference will not reverse in the foreseeable future. This includes taxation in respect of the retained earnings of overseas subsidiaries only to the extent that, at the balance sheet date, dividends have been accrued as receivable or a binding agreement to distribute past earnings in future periods has been entered into by the subsidiary.

Deferred tax assets and deferred tax liabilities are offset if a legally enforceable right exists to offset current tax assets against current income tax liabilities and the deferred taxes relate to the same taxation authority on either the same taxable entity or different taxable entities where there is an intention to settle the balances on a net basis.

Critical accounting estimates

The Group is subject to income taxes in numerous jurisdictions. There are many transactions and calculations for which the ultimate tax determination cannot be assessed with certainty in the ordinary course of business. The Group recognises a provision for potential cases that might arise in the foreseeable future based on assessment of the probabilities as to whether additional taxes will be due. Where the final tax outcome on these matters is different from the amounts that were initially recorded, such differences will impact the income tax provision in the period in which such determination is made. The Group anticipates that were the final tax outcome, on the judgement areas, to differ from management's estimates by up to 10%, the Group's consolidated tax expense would increase (or decrease) by approximately €5.0m.

The income tax charge for the years ended 31 December is as follows:

	2016 € million	2015 € million
Current tax expense	116.4	93.2
Deferred tax	(2.6)	(16.8)
Income tax expense	113.8	76.4

The tax on the Group's profit before tax differs from the theoretical amount that would arise using the weighted average tax rate applicable to profits of the consolidated entities as follows:

	2016 € million	2015 € million
Profit before tax	457.8	357.1
Tax calculated at domestic tax rates applicable to profits in the respective countries	105.0	88.6
Additional local taxes in foreign jurisdictions	8.9	11.7
Tax holidays in foreign jurisdictions	0.7	(1.5)
Expenses non-deductible for tax purposes	14.9	14.1
Income not subject to tax	(12.5)	(28.3)
Changes in tax laws and rates	(2.3)	(10.1)
Movement in utilisation of accumulated tax losses	(2.3)	3.7
Recognition of previously unrecognised post-acquisition tax losses	1.5	(2.6)
Other	(0.1)	0.8
Income tax expense	113.8	76.4

Non-deductible expenses for tax purposes include marketing and advertising expenses, service fees, bad debt provisions, entertainment expenses, certain employee benefits and stock options expenses and other items that, partially or in full, are not deductible for tax purposes in certain of our jurisdictions.

Deferred tax assets and liabilities presented in the consolidated balance sheet as at 31 December can be further analysed as follows:

	2016 € million	2015 € million
Deferred tax assets:		
To be recovered after more than 12 months	48.0	59.2
To be recovered within 12 months	86.0	79.7
Gross deferred tax assets	134.0	138.9
Offset of deferred tax	(76.5)	(82.6)
Net deferred tax assets	57.5	56.3
Deferred tax liabilities:		
To be recovered after more than 12 months	(181.9)	(197.6)
To be recovered within 12 months	(18.7)	(17.0)
Gross deferred tax liabilities	(200.6)	(214.6)
Offset of deferred tax	76.5	82.6
Net deferred tax liabilities	(124.1)	(132.0)

A reconciliation of net deferred tax is presented below:

	2016 € million	2015 € million
As at 1 January	(75.7)	(97.4)
Taken to the income statement	2.6	16.8
Taken to other comprehensive income	8.1	2.6
Foreign currency translation	(1.6)	2.3
As at 31 December	(66.6)	(75.7)

Notes to the Consolidated Financial Statements continued

10. Taxation continued

The movements in deferred tax assets and liabilities during the year, without taking into consideration the offsetting of balances pursuant to set-off provisions, are as follows:

	Provisions € million	Pensions and benefit plans € million	Tax losses carry-forward € million	Book in excess of tax depreciation € million	Leasing € million	Other deferred tax assets € million	Total € million
Deferred tax assets							
As at 1 January 2015	45.8	27.1	34.8	7.5	13.4	22.6	151.2
Taken to the income statement	(0.2)	1.7	(9.0)	0.3	(0.6)	0.6	(7.2)
Taken to other comprehensive income	–	(2.3)	–	–	–	2.4	0.1
Transfers between assets/liabilities	3.1	0.5	–	–	–	(3.1)	0.5
Foreign currency translation	(2.4)	–	(1.4)	–	(0.7)	(1.2)	(5.7)
As at 31 December 2015	46.3	27.0	24.4	7.8	12.1	21.3	138.9
Taken to the income statement	7.7	(6.0)	(9.1)	0.3	(3.3)	3.2	(7.2)
Taken to other comprehensive income	0.3	6.0	–	–	–	0.3	6.6
Transfers between assets/liabilities	6.0	(1.0)	–	0.2	–	(6.0)	(0.8)
Foreign currency translation	3.2	(3.9)	1.4	–	(0.2)	(4.0)	(3.5)
As at 31 December 2016	63.5	22.1	16.7	8.3	8.6	14.8	134.0

	Tax in excess of book depreciation € million	Derivative instruments € million	Other deferred tax liabilities € million	Total € million
Deferred tax liabilities				
As at 1 January 2015	(238.2)	(3.1)	(7.3)	(248.6)
Taken to the income statement	26.1	(2.1)	–	24.0
Taken to other comprehensive income	–	3.3	(0.8)	2.5
Transfers between assets/liabilities	–	–	(0.5)	(0.5)
Foreign currency translation	8.3	–	(0.3)	8.0
As at 31 December 2015	(203.8)	(1.9)	(8.9)	(214.6)
Taken to the income statement	13.6	(1.5)	(2.3)	9.8
Taken to other comprehensive income	–	1.5	–	1.5
Transfers between assets/liabilities	(0.2)	–	1.0	0.8
Foreign currency translation	2.0	–	(0.1)	1.9
As at 31 December 2016	(188.4)	(1.9)	(10.3)	(200.6)

Deferred tax assets recognised for tax losses carry-forward in accordance with the relevant local rules applying in our jurisdictions can be analysed as follows:

	2016 € million	2015 € million
Attributable to tax losses that expire within five years	9.8	15.6
Attributable to tax losses that expire after five years	–	5.0
Attributable to tax losses that can be carried forward indefinitely	6.9	3.8
Recognised deferred tax assets attributable to tax losses	16.7	24.4

The Group has unrecognised deferred tax assets attributable to tax losses that are available to carry forward against future taxable income of €13.0m (2015: €15.6m), which are analysed as follows:

	2016 € million	2015 € million
Attributable to tax losses that expire within five years	12.3	12.1
Attributable to tax losses that expire after five years	0.7	3.5
Unrecognised deferred tax assets attributable to tax losses	13.0	15.6

The aggregate amount of distributable reserves arising from the realised earnings of the Group's operations was €1,871.9m in 2016 (2015: €1,616.4m). No deferred tax liabilities have been recognised on such reserves given that their distribution is controlled by the Group, or in the event of plans to remit overseas earnings of subsidiaries, such distribution would not give rise to a tax liability.

11. Earnings per share

Accounting policy

Basic earnings per share is calculated by dividing the net profit attributable to the owners of the parent by the weighted average number of ordinary shares outstanding during the year. The weighted average number of ordinary shares outstanding during the year is the number of ordinary shares outstanding at the beginning of the year, adjusted by the number of ordinary shares bought back or issued during the year multiplied by a time-weighting factor. Diluted earnings per share incorporates stock options for which the average share price for the year is in excess of the exercise price of the stock option and there is a dilutive effect.

The calculation of the basic and diluted earnings per share attributable to the owners of the parent entity is based on the following data:

	2016	2015
Net profit attributable to the owners of the parent (€ million)	343.5	280.3
Weighted average number of ordinary shares for the purposes of basic earnings per share (million)	362.1	363.7
Effect of dilutive stock options (million)	1.4	1.5
Weighted average number of ordinary shares for the purposes of diluted earnings per share (million)	363.5	365.2
Basic and diluted earnings per share (€)	0.95	0.77

Outstanding stock options that have an anti-dilutive effect and therefore were excluded from diluted earnings per share in 2016 were €4.3m (2015: €4.5m).

12. Components of other comprehensive income

The components of other comprehensive income for the years ended 31 December comprise:

	2016			2015		
	Before-tax € million	Tax income € million	Net-of-tax € million	Before-tax € million	Tax (expense)/ income € million	Net-of-tax € million
Available-for-sale financial assets	(0.1)	–	(0.1)	0.1	(0.1)	–
Cash flow hedges	(31.3)	1.1	(30.2)	(20.3)	5.6	(14.7)
Foreign currency translation	(112.9)	–	(112.9)	(65.8)	–	(65.8)
Actuarial (losses) / gains	(41.7)	7.0	(34.7)	11.1	(2.9)	8.2
Share of other comprehensive income of equity method investments	(7.5)	–	(7.5)	(0.2)	–	(0.2)
Other comprehensive income	(193.5)	8.1	(185.4)	(75.1)	2.6	(72.5)

The majority of foreign currency translation impact for 2016 is related to the Nigerian naira and the Russian rouble, while the majority of the impact for 2015 related to the Russian rouble and the Swiss franc.

Notes to the Consolidated Financial Statements continued

13. Intangible assets

Accounting policy

Intangible assets consist of goodwill, franchise agreements, trademarks and water rights. Goodwill and other indefinite-lived intangible assets are carried at cost less accumulated impairment losses, while intangible assets with finite lives are amortised over their useful economic lives. The useful lives, both finite and indefinite, assigned to intangible assets are evaluated on an annual basis.

Intangible assets with indefinite lives ('not subject to amortisation')

Intangible assets not subject to amortisation consist of goodwill, franchise agreements and trademarks.

Goodwill is the excess of the consideration transferred over the fair value of the share of net assets acquired. Goodwill and fair value adjustments arising on the acquisition of subsidiaries are treated as the assets and liabilities of those subsidiaries. These balances are denominated in the functional currency of the subsidiary and are translated to Euro on a basis consistent with the other assets and liabilities of the subsidiary.

The useful life of franchise agreements is usually based on the term of the respective franchise agreements. The Coca-Cola Company does not grant perpetual franchise rights outside the United States. However, the Group believes its franchise agreements, consistent with past experience, will continue to be renewed at each expiration date and have therefore been assigned indefinite useful lives.

The Group's trademarks are assigned an indefinite useful life when they have an established sales history in the applicable region, it is the intention of the Group to receive a benefit from them indefinitely and there is no indication that this will not be the case.

Goodwill and other indefinite-lived intangible assets are tested for impairment annually and whenever there is an indication of impairment.

For the purpose of impairment testing, goodwill is allocated to each of the Group's cash-generating units expected to benefit from the business combination in which the goodwill arose. Other indefinite-lived intangible assets are also allocated to the Group's cash-generating units expected to benefit from those intangibles. The cash-generating units ('unit') to which goodwill and other indefinite-lived intangible assets have been allocated are tested for impairment annually, or more frequently when there is an indication that the unit may be impaired. If the recoverable amount (i.e. the higher of the value-in-use and fair value less costs to sell) of the cash-generating unit is less than the carrying amount of the unit, the impairment loss is allocated first to reduce the carrying amount of any goodwill allocated to the unit and then pro-rata to the other assets of the unit on the basis of the carrying amount of each asset in the unit. Impairment losses recognised against goodwill are not reversed in subsequent periods.

Intangible assets with finite lives

Intangible assets with finite lives mainly consist of water rights and are amortised over their useful economic lives and are carried at cost less accumulated amortisation and impairment losses.

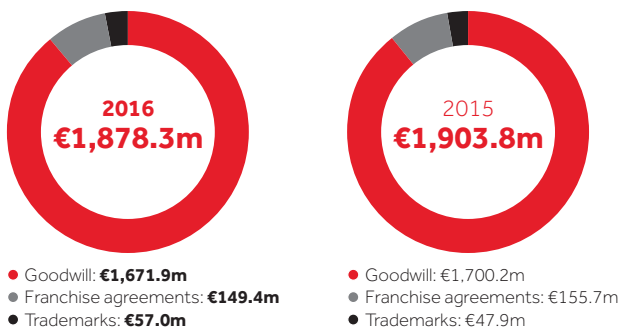

Critical accounting estimates

Determining whether goodwill or indefinite-lived intangible assets are impaired requires an estimation of the value-in-use of the cash-generating units to which they have been allocated in order to determine the recoverable amount of the cash-generating units. The value-in-use calculation requires the Group to estimate the future cash flows expected to arise from the cash-generating unit and a suitable discount rate in order to calculate present value.

The movements in intangible assets by classes of assets during the year are as follows:

	Goodwill € million	Franchise agreements € million	Trademarks € million	Other intangible assets € million	Total € million
Cost					
As at 1 January 2015	1,847.8	156.8	63.3	26.3	2,094.2
Foreign currency translation	34.8	(1.1)	(6.4)	(0.1)	27.2
As at 31 December 2015	1,882.6	155.7	56.9	26.2	2,121.4
Amortisation					
As at 1 January 2015	182.4	–	8.9	18.1	209.4
Charge for the year	–	–	–	0.4	0.4
As at 31 December 2015	182.4	–	8.9	18.5	209.8
Net book value as at 1 January 2015	1,665.4	156.8	54.4	8.2	1,884.8
Net book value as at 31 December 2015	1,700.2	155.7	48.0	7.7	1,911.6
Cost					
As at 1 January 2016	1,882.6	155.7	56.9	26.2	2,121.4
Intangible assets arising on current year acquisitions (refer to Note 22)	3.2	–	7.8	8.8	19.8
Reclassified to assets held for sale (refer to Note 18)	–	–	(7.8)	(8.8)	(16.6)
Foreign currency translation	(31.5)	(6.3)	9.0	0.1	(28.7)
As at 31 December 2016	1,854.3	149.4	65.9	26.3	2,095.9
Amortisation					
As at 1 January 2016	182.4	–	8.9	18.5	209.8
Charge for the year	–	–	–	0.4	0.4
As at 31 December 2016	182.4	–	8.9	18.9	210.2
Net book value as at 1 January 2016	1,700.2	155.7	48.0	7.7	1,911.6
Net book value as at 31 December 2016	1,671.9	149.4	57.0	7.4	1,885.7

Intangible assets not subject to amortisation amounted to €1,878.3m (2015: €1,903.8m), and are presented in the chart below:

The carrying value of intangible assets subject to amortisation amounted to €7.4m (2015: €7.8m) and comprise primarily water rights.

Notes to the Consolidated Financial Statements continued

13. Intangible assets continued

Impairment tests for goodwill and other indefinite-lived intangible assets

The recoverable amount of each cash-generating unit was determined through a value-in-use calculation. That calculation uses cash flow projections based on financial budgets approved by the Board of Directors covering a one-year period and cash projections for four additional years. Cash flows for years two to five were projected by management based on operation and market specific high-level assumptions including growth rates, discount rates and forecasted selling prices and direct costs. Management determined gross margins based on past performance, expectations for the development of the market and expectations about raw material costs. The growth rates used in perpetuity reflect the forecasts in line with management beliefs. These forecasts exceeded, in certain cases, those expected for the industry in general, due to the strength of our brand portfolio. Management estimates discount rates using rates that reflect current market assessments of the time value of money and risks specific to the countries of operation.

No impairment of goodwill and other indefinite-lived assets was indicated from the impairment tests of 2016 and 2015.

The following table sets forth the carrying value of goodwill and other indefinite-lived intangible assets for those cash-generating units whose carrying value is greater than 10% of the total, as at 31 December 2016.

	Goodwill € million	Franchise agreements € million	Trademarks € million	Total € million
Italy	625.2	126.9	–	752.1
Switzerland	430.2	–	–	430.2
The Republic of Ireland and Northern Ireland	250.4	–	–	250.4
All other cash-generating units	366.1	22.5	57.0	445.6
Total	1,671.9	149.4	57.0	1,878.3

For the above cash-generating units, cash flows beyond the five-year period (the period in perpetuity) have been extrapolated using the following estimated growth and discount rates:

Intangible assets not subject to amortisation as at 31 December 2016 (%)

- Italy: **40%**
- Switzerland: **23%**
- The Republic of Ireland and Northern Ireland: **13%**
- Other: **24%**

	Growth rate in perpetuity (%)		Discount rate (%)	
	2016	2015	2016	2015
Italy	2.5	2.5	6.5	5.9
Switzerland	1.5	0.6	6.7	6.1
The Republic of Ireland and Northern Ireland	3.1	2.2	6.8	6.1

Sensitivity analysis

In the cash-generating units of the Multon ZAO Group of companies and Nigeria, possible changes in certain key assumptions of the 2016 impairment test would remove the remaining headroom. In the joint operation of the Multon ZAO Group of companies, which has €48.9m goodwill, the recoverable amount calculated based on value-in-use exceeded carrying value by €107.1m. In Nigeria, which has €27.1m of goodwill and franchise agreements, the recoverable amount calculated based on value-in-use exceeded carrying value by €95.2m. Changes per assumption that would eliminate remaining headroom are summarised in the table below:

	Average gross profit margin	Growth rate in perpetuity	Discount rate
Multon ZAO Group of companies	⬇ 3.2%	⬇ 4.2%	⬆ 2.9%
Nigeria	⬇ 1.7%	⬇ 1.2%	⬆ 0.9%

14. Property, plant and equipment

Accounting policy

All property, plant and equipment is initially recorded at cost and subsequently measured at cost less accumulated depreciation and impairment losses. Subsequent expenditure is added to the carrying value of the asset when it is probable that future economic benefits, in excess of the original assessed standard of performance of the existing asset, will flow to the operation and the costs can be measured reliably. All other subsequent expenditure is expensed in the period in which it is incurred.

Assets under construction are recorded as part of property, plant and equipment and depreciation on these assets commences when the assets are available for use.

The Coca-Cola Company, at its sole discretion, provides the Group with contributions towards the purchase of cold drink equipment. Payments are made on placement of coolers and are based on franchise incentive arrangements. The terms and conditions of these arrangements require reimbursement if certain conditions stipulated in the agreements are not met, including minimum volume through-put requirements. Support payments received from The Coca-Cola Company for the placement of cold drink equipment are deducted from the cost of the related asset.

Depreciation is calculated on a straight-line basis to allocate the depreciable amount over the estimated useful life of the assets as follows:

Freehold buildings and improvements	40 years
Leasehold buildings and improvements	Over the lease term, up to 40 years
Production equipment	4 to 20 years
Vehicles	5 to 8 years
Computer hardware and software	3 to 10 years
Marketing equipment	3 to 10 years
Fixtures and fittings	8 years
Returnable containers	3 to 12 years

Freehold land is not depreciated as it is considered to have an indefinite life.

Deposits received for returnable containers by customers are accounted for as deposit liabilities (refer to Note 19).

Residual values and useful lives of assets are reviewed and adjusted if appropriate at each balance sheet date.

Property, plant and equipment and other non-financial assets that are subject to depreciation are reviewed for impairment whenever events or changes in circumstances indicate that the carrying amount may not be recoverable. An impairment loss is recognised for the amount by which the carrying amount of the asset exceeds its recoverable amount, which is the higher of the asset's fair value less cost to sell and its value-in-use. For the purposes of assessing impairment, assets are grouped at the lowest level of separately identifiable cash flows.

Notes to the Consolidated Financial Statements continued

Net book value as at 31 December 2016	966.1	1,155.9	183.1	101.5	2,406.6

Assets under construction at 31 December 2016 include advances for equipment purchases of €12.5m (2015: €16.2m). Depreciation charge for the year included in operating expenses amounted to €135.0m (2015: €133.2m). Depreciation charge for the year included in cost of goods sold amounted to €170.5m (2015: €174.9m).

Impairment of property, plant and equipment

In 2015 the Group recorded an impairment loss of €12.8m, €5.0m and €17.0m and recorded reversals of impairment of €1.0m, €0.5m and €1.2m relating to property, plant and equipment in the Established, Developing and Emerging segments respectively. This resulted in a net impairment loss of €11.8m, €4.5m and €15.8m in the Established, Developing and Emerging segments respectively. Impairment recorded mainly relates to restructuring initiatives (refer also to Note 8). The impaired assets, being mainly land and buildings and production equipment, were written off based on value-in-use calculations; while assets with a recoverable amount of €36.3m were valued at fair value less cost to sell, which is considered a Level 3 measurement.

In 2016 the Group recorded an impairment loss of €3.9m, €6.1m and €20.2m and recorded reversals of impairment of €0.9m, €nil and €2.4m relating to property, plant and equipment in the Established, Developing and Emerging segments respectively. This resulted in a net impairment loss of €3.0m, €6.1m and €17.8m in the Established, Developing and Emerging segments respectively. Impairment recorded mainly relates to restructuring initiatives (refer also to Note 8). The impaired assets, being mainly buildings and production equipment, were written off based on value-in-use calculations.

Leased assets

Accounting policy

Leases of property, plant and equipment, where the Group has substantially all the risks and rewards of ownership, are classified as finance leases.

Finance leases are capitalised at the inception of the lease at the lower of the fair value of the leased assets and the present value of the minimum lease payments. Each lease payment is allocated between liability and finance charges to achieve a constant rate on the finance balance outstanding. The corresponding lease obligations, net of finance charges, are included in current and non-current borrowings. The interest element of the finance cost is charged to the income statement over the lease period, so as to produce a constant periodic rate of interest on the remaining balance of the liability for each period (refer to Note 24). Property, plant and equipment acquired under finance lease is depreciated over the shorter of the useful life of the asset and the lease term. The useful life for leased assets corresponds with the Group policy for the depreciable life of property, plant and equipment.

Included in property, plant and equipment are assets held under finance leases, where the Group is the lessee, as follows:

	2016 € million	2015 € million
Cost	184.9	202.2
Accumulated depreciation	(82.4)	(85.6)
Net book value	102.5	116.6

Net book value of assets held under finance leases by classes of assets is as follows:

Plant and equipment	67.4	78.6
Land and buildings	35.1	38.0
Net book value	102.5	116.6

Notes to the Consolidated Financial Statements continued

15. Interests in other entities**List of principal subsidiaries**

The following are the principal subsidiaries of the Group as at 31 December:

	Country of registration	% of voting rights		% ownership

Associates and joint arrangements

Accounting policies

Investments in associates

Investments in associated undertakings are accounted for by the equity method of accounting. Associated undertakings are all entities over which the Group has significant influence but not control, generally accompanying a shareholding of between 20% to 50% of the voting rights.

The equity method of accounting involves recognising the Group's share of the associates' post-acquisition profit or loss for the period in the income statement and its share of the post-acquisition movement in other comprehensive income is recognised in other comprehensive income. Unrealised gains and losses resulting from transactions between the Group and the associate are eliminated to the extent of the interest in the associate.

The Group's interest in each associate is carried in the balance sheet at an amount that reflects its share of the net assets of the associate and includes goodwill on acquisition. When the Group's share of losses in an associate equals or exceeds its interest in the associate, the Group does not recognise further losses, unless the Group has incurred obligations or made payments on behalf of the associate.

Investments in joint arrangements

Joint arrangements are arrangements in which the Group has contractually agreed sharing of control, which exists only when decisions about the relevant activities require unanimous consent. Joint arrangements are classified as joint ventures or joint operations depending upon the rights and obligations arising from the joint arrangement.

The Group classifies a joint arrangement as a joint venture when the Group has rights to the net assets of the arrangement. The Group accounts for its interests in joint ventures using the equity method of accounting as described in the section above.

The Group classifies a joint arrangement as a joint operation when the Group has the rights to the assets, and obligations for the liabilities, of the arrangement and accounts for each of its assets, liabilities, revenues and expenses, including its share of those held or incurred jointly, in relation to the joint operation.

If facts and circumstances change, the Group reassesses whether it still has joint control and whether the type of joint arrangement in which it is involved has changed.

Critical accounting judgements

The Group participates in several joint arrangements. Judgement is required in order to determine their classification as a joint venture where the Group has rights to the net assets of the arrangement, or a joint operation where the Group has rights to the assets and obligations for the liabilities of the arrangement. In making this judgement, consideration is given to the legal form of the arrangement, and the contractual terms and conditions, as well as other facts and circumstances (including the economic rationale of the arrangement and the impact of the legal framework).

a) Equity method investments

Changes in the carrying amounts of equity method investments are as follows:

	Associates € million	Joint ventures € million	Total € million
As at 1 January 2015	20.6	206.9	227.5
Acquisitions	0.5	–	0.5
Share of results of equity method investments	4.6	2.5	7.1
Share of other comprehensive income of equity method investments	(1.0)	0.8	(0.2)
Share of total comprehensive income	3.6	3.3	6.9
Dividends	(1.5)	(119.6)	(121.1)
As at 31 December 2015	23.2	90.6	113.8
Capital increase	–	7.9	7.9
Additions (refer to Note 22)	–	7.1	7.1
Share of results of equity method investments	7.8	6.0	13.8
Share of other comprehensive income of equity method investments	(7.4)	(0.1)	(7.5)
Share of total comprehensive income	0.4	5.9	6.3
Dividends	(1.1)	(17.0)	(18.1)
As at 31 December 2016	22.5	94.5	117.0

Notes to the Consolidated Financial Statements continued

15. Interests in other entities continued

Included in investment in associates is the Group's investment in Frigoglass Industries Limited and Frigoglass West Africa Ltd. Nigerian Bottling Company Ltd holds an interest in both Frigoglass Industries Limited and Frigoglass West Africa Ltd of 23.9% (2015: 23.9%). The Group has a 100% (2015: 100%) interest in Nigeria Bottling Company Ltd, therefore the Group has an effective interest of 23.9% in both Frigoglass Industries Limited (2015: 23.9%) and Frigoglass West Africa Ltd (2015: 23.9%).

Investments in joint ventures

The Group has a material joint venture with Heineken that is conducted through a number of legal entities being the BrewTech B.V. Group of companies, which is engaged in the bottling and distribution of soft drinks and beer in FYROM, and the Brewinvest S.A. Group of companies which has minimal activity. BrewTech B.V. is incorporated in the Netherlands and the Group owns 50% (2015: 50%) of its share capital. Brewinvest S.A., parent company of Brewinvest S.A. Group of companies, which has minimal other activities, is incorporated in Greece and the Group owns 50% (2015: 50%) of its share capital. The structure of the joint venture provides the Group with rights to their net assets.

Summarised financial information of the Group's material joint venture is as follows (the information below reflects the amount presented in the IFRS financial statements of the joint venture, and not the Group's share in those amounts):

	2016 € million	2015 € million
Summarised balance sheet:		
Cash and cash equivalents	31.1	29.5
Other current assets	16.8	7.3
Total current assets	47.9	36.8
Short-term borrowings	–	(0.3)
Other current liabilities (including trade payables)	(10.9)	(10.5)
Total current liabilities	(10.9)	(10.8)
Non-current assets	46.9	80.4
Total non-current other liabilities	(0.2)	(0.4)
Net assets	83.7	106.0
Summarised statement of comprehensive income:		
Net sales revenue	57.8	55.1
Depreciation and amortisation	(4.7)	(5.9)
Interest income	0.6	1.0
Interest expense	(0.1)	(0.2)
Profit before tax	13.2	11.8
Tax	(1.6)	(1.4)
Profit after tax	11.6	10.4
Other comprehensive income	–	(0.1)
Total comprehensive income	11.6	10.3
Dividends received (refer to Note 26d)	16.5	119.6
Reconciliation of net assets to carrying amount:		
Closing net assets	83.7	106.0
Interest in joint venture at 50%	41.8	53.0
Goodwill	16.9	16.9
Non-controlling interest	(1.7)	(1.7)
Carrying value	57.0	68.2

Summarised financial information of the Group's investment in other joint ventures is as follows:

	2016 € million	2015 € million
Carrying amount	37.5	22.4
Share of profit / (loss)	0.2	(2.7)
Share of other comprehensive income	(0.1)	0.8
Share of total comprehensive income	0.1	(1.9)

The Group's share of loss in other joint ventures includes restructuring initiatives within joint ventures of €0.1m (2015: €1.2m).

At 31 December 2016, the Group's share of its joint ventures' capital commitments and long-term commitments to purchase raw materials and receive services amounted to €0.4m and €nil respectively (2015: €4.9m and €nil respectively).

b) Joint operations

The Group has a 50% interest in the Multon Z.A.O. group of companies ('Multon'). Multon is engaged in the production and distribution of juices in Russia and is classified as a joint operation as the arrangement gives the Group rights to the assets and obligations for the liabilities relating to the joint arrangement. Other joint operations of the Group comprise mainly a 50% interest in each of several water businesses as depicted below, which are engaged in the production and distribution of water in the respective countries.

Country	Joint operation	Country	Joint operation
Austria	Römerquelle	Poland	Multivita
Italy	Fonti del Vulture	Switzerland	Valsler
Romania	Dorna	Serbia	Vlasinka

16. Inventories

Accounting policy

Inventories are stated at the lower of cost and net realisable value.

Cost for raw materials and consumables is determined on a weighted average basis. Cost for work in progress and finished goods is comprised of the cost of direct materials and labour plus attributable overhead costs. Cost includes all costs incurred to bring the product to its present location and condition.

Net realisable value is the estimated selling price in the ordinary course of business, less the estimated costs necessary to complete and sell the inventory.

Inventories consisted of the following at 31 December:

	2016 € million	2015 € million
Finished goods	199.8	194.8
Raw materials and work in progress	158.3	159.4
Consumables	73.4	81.6
Total inventories	431.5	435.8

The amount of inventories recognised as an expense during 2016 was €2,990.3m (2015: €3,035.4m). During 2016 provision of obsolete inventories recognised as an expense amounted to €11.4m (2015: €11.7m).

Notes to the Consolidated Financial Statements continued

17. Trade, other receivables and assets

Accounting policies

Trade receivables are initially recognised at fair value and subsequently measured at amortised cost. A provision for doubtful debts is established when there is objective evidence that the Group will not be able to collect all amounts due, according to the original terms of the trade receivable. Significant financial difficulties of the debtor, probability that the debtor will enter into bankruptcy or financial reorganisation and default or delinquency in payments (over 90 days) are considered indicators that the trade receivable could be uncollectible. The amount of the provision is the difference between the receivable's carrying amount and the present value of its estimated future cash flows, discounted at the original effective interest rate. The carrying amount of the receivable is reduced by the amount of the provision, which is recognised as part of operating expenses. If a trade receivable ultimately becomes uncollectible, it is written off initially against any provision made in respect of that receivable with any excess recognised as part of operating expenses. Subsequent recoveries of amounts previously written off or provisions no longer required are credited against operating expenses.

Loans are initially recognised at the fair value net of transaction costs incurred.

After initial recognition, all interest-bearing loans are subsequently measured at amortised cost. Amortised cost is calculated using the effective interest rate method whereby any discount, premium or transaction costs associated with a loan are amortised to the income statement over the borrowing period.

Financial assets

The Group classifies its investments in debt and equity securities into the following categories: held-to-maturity and available-for-sale. The classification depends on the purpose for which the investment was acquired. Investments with a fixed maturity that management has the intent and ability to hold to maturity are classified as held-to-maturity and are included in non-current assets, except for those with maturities within 12 months from the balance sheet date, which are classified as current assets. Investments intended to be held for an indefinite period of time, which may be sold in response to need for liquidity or changes in interest rates, are classified as available-for-sale and are classified as non-current assets, unless they are expected to be realised within 12 months of the balance sheet date. Available-for-sale financial assets are carried at fair value. Held-to-maturity investments are carried at amortised cost using the effective interest rate method.

The Group derecognises a financial asset when the contractual rights to the cash flows from the asset expire, or it transfers the rights to receive the contractual cash flows in a transaction in which substantially all of the risks and rewards of ownership of the financial asset are transferred, or it neither transfers nor retains substantially all of the risks and rewards of ownership and does not retain control over the transferred asset. When the Group has neither transferred nor retained substantially all the risks and rewards of the asset, nor transferred control of the asset, the Group continues to recognise the transferred asset to the extent of the Group's continuing involvement. In that case, the Group also recognises an associated liability. The transferred asset and the associated liability are measured on a basis that reflects the rights and obligations that the Group has retained.

Unrealised gains and losses on available-for-sale financial assets are recognised in other comprehensive income, except for impairment losses and foreign exchange gains and losses on monetary financial assets that are recognised in the income statement until the financial assets are derecognised, at which time the cumulative gains or losses previously recognised in equity are reclassified to the income statement.

Gains and losses on held-to-maturity investments are recognised in the income statement, when the investments are derecognised or impaired.

Trade, other receivables and assets consisted of the following as at 31 December:

	Current assets		Non-current assets	
	2016 € million	2015 € million	2016 € million	2015 € million
<i>Trade and other receivables:</i>				
Trade receivables	727.6	664.0	2.2	5.1
Receivables from sale of property, plant and equipment	0.5	8.7	–	–
Receivables from related parties (refer to Note 26)	117.0	85.7	–	–
Loans to related parties (refer to Note 26)	5.2	8.0	–	–
Loans receivable	0.1	0.8	0.4	0.7
Non-current income tax receivable	–	–	8.4	8.2
VAT and other taxes receivable	35.5	25.3	–	–
Loans and advances to employees	5.7	6.4	–	–
Other receivables	63.2	44.3	–	–
Total trade and other receivables	954.8	843.2	11.0	14.0
<i>Other assets:</i>				
Prepayments	76.0	66.3	13.2	12.4
Held-to-maturity investments	–	–	0.9	1.1
Pension plan assets (refer to Note 20)	–	–	–	2.2
Available-for-sale financial assets	–	–	3.6	1.7
Total other assets	76.0	66.3	17.7	17.4
Total trade, other receivables and assets	1,030.8	909.5	28.7	31.4

Non-current trade receivables relate to re-negotiated receivables, which are expected to be settled within the new contractual due date.

Trade receivables classified as current assets consisted of the following at 31 December:

	2016 € million	2015 € million
Trade receivables	819.6	742.9
Less: Provision for doubtful debts	(92.0)	(78.9)
Total trade receivables	727.6	664.0

The credit period given to customers ranges from 7 days to 90 days depending on the country and customer type. In most territories, interest is not charged for late payment. There are no customers who represent more than 5% of the total balance of trade receivables.

Before accepting any new credit customers, the Group investigates the potential customer's credit quality (usually through external agents) and defines credit limits for each customer and/or historical experience. Customers are reviewed on an ongoing basis and credit limits adjusted accordingly. The Group's exposure to credit risk is managed by established policies and procedures regarding financial risk management, as described in Note 23.

Trade receivables classified as current assets are as follows:

	2016 € million	2015 € million
Within due date	588.9	579.5
Less: Provision for doubtful debts within due date	(2.5)	(4.4)
Past due	230.7	163.4
Less: Provision for doubtful debts past due	(89.5)	(74.5)
Total trade receivables	727.6	664.0

As at 31 December 2016, the Group held collateral, in the form of mortgages, bank guarantees, bills of exchange and credit insurance, as security against trade receivables classified in current assets with a nominal amount of €44.4m (2015: €33.4m). The carrying amounts of the trade receivables include €15.3m which are subject to factoring agreement. The Group continues to recognise the factored receivables in their entirety as it has retained the significant risks of ownership. The amount payable under the factoring agreement is presented within borrowings (refer to Note 24).

Notes to the Consolidated Financial Statements continued

17. Trade, other receivables and assets continued

The ageing analysis of past due trade receivables is as follows:

	2016 € million				Total
	Up to three months	Three to six months	Six to nine months	More than nine months	
Trade receivables past due but not impaired	114.6	12.6	3.5	10.5	141.2
Trade receivables past due and impaired	4.1	7.3	3.4	74.7	89.5
Total trade receivables past due	118.7	19.9	6.9	85.2	230.7

	2015 € million				Total
	Up to three months	Three to six months	Six to nine months	More than nine months	
Trade receivables past due but not impaired	79.9	2.7	1.0	5.3	88.9
Trade receivables past due and impaired	1.0	9.5	2.2	61.8	74.5
Total trade receivables past due	80.9	12.2	3.2	67.1	163.4

The movement in the provision for doubtful debts during the year is as follows:

	2016 € million	2015 € million
As at 1 January	(78.9)	(79.2)
Amounts written off during the year	7.7	10.3
Amounts recovered during the year	2.2	1.2
Increase in allowance recognised in the income statement	(22.8)	(11.8)
Foreign currency translation	(0.2)	0.6
As at 31 December	(92.0)	(78.9)

Receivables from related parties

The related party receivables, net of the provision for doubtful debts, are as follows:

	2016 € million	2015 € million
Within due date	114.0	79.2
Past due	3.3	6.5
Less: Provision for doubtful debts	(0.3)	–
Total related party receivables	117.0	85.7

As at 31 December 2016, related party receivables of €3.0m (2015: €6.5m) were past due but not impaired. The ageing analysis of these receivables is as follows:

	2016 € million	2015 € million
Up to three months	1.3	4.3
Three to six months	0.3	0.8
Six to nine months	0.3	0.4
More than nine months	1.1	1.0
Total	3.0	6.5

18. Assets classified as held for sale

Accounting policy

Non-current assets and disposal groups are classified as held for sale if it is considered highly probable that their carrying amount will be principally recovered through a sale transaction rather than through continuing use. This condition is regarded as met only when the sale is highly probable and the asset (or disposal group) is available for immediate sale in its present condition. In order for a sale to be considered highly probable, management must be committed to the sale, an active programme to locate a buyer and complete the plan has been initiated, and the sale is expected to be completed within one year from the date of classification.

In the event that the criteria for continued classification as held for sale are no longer met, the assets are reclassified to property, plant and equipment and the depreciation charge is adjusted for the depreciation that would have been recognised had the assets not been classified as held for sale.

Non-current assets and disposal groups classified as held for sale are measured at the lower of the individual assets' previous carrying amount and their fair value less costs to sell.

Changes in carrying amounts of assets classified as held for sale for the years ended 31 December are as follows:

	2016 € million	2015 € million
As at 1 January	5.5	1.0
Reclassified from property, plant and equipment (refer to Note 14)	14.4	5.4
Other assets classified as held for sale	14.0	–
Disposals	(17.1)	–
Reclassified to property, plant and equipment (refer to Note 14)	(4.3)	(0.9)
Foreign currency translation	(0.7)	–
As at 31 December	11.8	5.5

Total assets classified as held for sale as at 31 December 2015 amounted to €5.5m, comprising the net book value of property, plant and equipment in our Established and Emerging markets that have been written down to fair value less cost to sell. This is a non-recurring fair value measurement and within Level 3 of the fair value hierarchy. The fair value of assets classified as held for sale was determined through the use of a sales comparison approach.

In 2016 it was agreed that 50% of the Group's share in its subsidiary Neptūno Vandenys, UAB, would be sold to European Refreshments, a subsidiary of TCCC. Accordingly, 50% of the net assets of Neptūno Vandenys, UAB amounting to €14.0m, mainly relating to intangible assets of €16.6m (refer to Note 13), net of the relevant deferred tax liability, were classified as assets held for sale. The transaction was completed in December 2016 (refer to Note 22). Total assets classified as held for sale as at 31 December 2016 amounted to €11.8m, comprising property, plant and equipment in our Established, Developing and Emerging markets, measured at the lower of the carrying amount and fair value less costs to sell. The fair value of held for sale assets was determined through the use of a sales comparison approach and is a non-recurring fair value measurement within Level 3 of the fair value hierarchy.

19. Trade and other payables

Accounting policy

Trade payables are recognised initially at fair value and subsequently measured at amortised cost using the effective interest rate method.

Trade and other payables consisted of the following at 31 December:

	2016 € million	2015 € million
Trade payables	536.7	485.1
Accrued liabilities	471.2	468.5
Payables to related parties (refer to Note 26)	303.4	259.2
Deposit liabilities	100.6	112.6
Other tax and social security liabilities	98.1	89.7
Salaries and employee-related payables	43.6	45.8
Deferred income	1.0	1.2
Other payables	32.7	41.5
Total trade and other payables	1,587.3	1,503.6

The amount due to pension funds as at 31 December 2016 was €1.3m (2015: €1.1m).

Notes to the Consolidated Financial Statements continued

20. Provisions and employee benefits

Provisions and employee benefits consisted of the following at 31 December:

	2016 € million	2015 € million
<i>Current</i>		
Employee benefits	96.0	62.3
Restructuring provisions	8.5	15.7
Other provisions	14.1	8.8
Total current provisions and employee benefits	118.6	86.8
<i>Non-current</i>		
Employee benefits	123.0	140.1
Restructuring provisions	–	0.1
Other provisions	2.0	1.3
Total non-current provisions and employee benefits	125.0	141.5
Total provisions and employee benefits	243.6	228.3

a) Provisions

Accounting policy

Provisions are recognised when: the Group has a present obligation (legal or constructive) as a result of a past event; it is probable that an outflow of resources embodying economic benefits will be required to settle the obligation; and a reliable estimate can be made of the amount of the obligation.

Where the Group expects a provision to be reimbursed, for example under an insurance contract, the reimbursement is recognised as a separate asset only when such reimbursement is virtually certain. If the effect of the time value of money is material, provisions are determined by discounting the expected future cash flows at a pre-tax rate that reflects current market assessments of the time value of money and the risks specific to the liability. Where discounting is used, the increase in the provision due to the passage of time is recognised as an interest expense.

The movements in restructuring and other provisions comprise:

	2016 € million		2015 € million	
	Restructuring provision	Other provision	Restructuring provision	Other provision
As at 1 January	15.8	10.1	7.9	5.3
Arising during the year	22.7	11.8	37.5	7.0
Unutilised during the year	(26.8)	(4.3)	(26.3)	(2.1)
Unused amount reversed	(2.5)	(1.5)	(3.0)	–
Foreign currency translation	(0.7)	–	(0.3)	(0.1)
As at 31 December	8.5	16.1	15.8	10.1

Other provisions comprise a provision for employee litigation of €4.2m (2015: €3.8m) and other items of €11.9m (2015: €6.3m).

b) Employee benefits

Accounting policies

Employee benefits

The Group operates a number of defined benefit and defined contribution pension plans in its territories.

The defined benefit plans are made up of both funded and unfunded pension plans and employee leaving indemnities. The assets of funded plans are generally held in separate trustee-administered funds and are financed by payments from employees and/or the relevant Group companies.

The liability recognised in the balance sheet in respect of defined benefit plans is the present value of the defined benefit obligation at the balance sheet date less the fair value of the plan assets.

For defined benefit pension plans, pension costs are assessed using the projected unit credit method. Actuarial gains and losses arising from experience adjustments and changes in actuarial assumptions are charged or credited to equity in other comprehensive income in the period in which they arise. Such actuarial gains and losses are not reclassified to the income statement in subsequent periods. The defined benefit obligations are measured at the present value of the estimated future cash outflows using interest rates of high-quality corporate bonds that are denominated in the currency in which the benefits will be paid, and that have terms approximating to the terms of the related obligation. In countries where there is no deep market in such bonds, the market rates on government bonds are used. Past service cost is recognised immediately in the income statement. A number of the Group's operations have other long-service benefits in the form of jubilee plans. These plans are measured at the present value of the estimated future cash outflows with immediate recognition of actuarial gains and losses.

The Group's contributions to the defined contribution pension plans are charged to the income statement in the period to which the contributions relate.

Termination benefits

Termination benefits are payable whenever an employee's employment is terminated before the normal retirement date or whenever an employee accepts voluntary redundancy in exchange for these benefits. The Group recognises termination benefits at the earlier of the following dates: a) when the Group can no longer withdraw the offer of those benefits and b) when the Group recognises costs for a restructuring that is within the scope of IAS 37 Provisions, Contingent Liabilities and Contingent Assets and involves the payment of termination benefits. In the case of an offer made to encourage voluntary redundancy, the termination benefits are measured based on the number of employees expected to accept the offer.

Critical accounting estimates

The Group provides defined benefit pension plans as an employee benefit in certain territories. Determining the value of these plans requires several actuarial assumptions and estimates about discount rates, future salary increases and future pension increases. Due to the long-term nature of these plans, such estimates are subject to significant uncertainty.

Employee benefits consisted of the following at 31 December:

	2016 € million	2015 € million
<i>Defined benefit plans</i>		
Employee leaving indemnities	76.0	86.9
Pension plans	39.8	22.3
Long service benefits – jubilee plans	8.4	8.7
Total defined benefits plans	124.2	117.9
<i>Other employee benefits</i>		
Annual leave	7.4	8.2
Other employee benefits	87.4	76.3
Total other employee benefits	94.8	84.5
Total employee benefits obligations	219.0	202.4

Other employee benefits are primarily comprised of employee bonuses including a management incentive plan which is a cash variable plan that operates over a three-year period.

Employees of Coca-Cola HBC's subsidiaries in Austria, Bulgaria, Croatia, Greece, Italy, Montenegro, Nigeria, Poland, Romania, Serbia and Slovenia are entitled to employee leaving indemnities, generally based on each employee's length of service, employment category and remuneration. These are unfunded plans where the Company meets the payment obligation as it falls due.

Notes to the Consolidated Financial Statements continued

20. Provisions and employee benefits continued

Coca-Cola HBC's subsidiaries in Austria, Greece, Northern Ireland, the Republic of Ireland and Switzerland sponsor defined benefit pension plans. Of the three plans in the Republic of Ireland, two have plan assets, as do the two plans in Northern Ireland, one plan in Greece and two plans in Switzerland. The Austrian plans do not have plan assets and the Company meets the payment obligation as it falls due. The defined benefit plans in Austria, Greece, Republic of Ireland and Northern Ireland are closed to new members.

Coca-Cola HBC provides long-service benefits in the form of jubilee plans to its employees in Austria, Croatia, Nigeria, Poland, Slovenia and Switzerland.

Defined benefit obligation by segment is as follows for the years ended 31 December:

The average duration of the defined benefit obligations is 19 years and the total employer contributions expected to be paid in 2017 are €17.5m.

Reconciliation of defined benefit obligation:

	2016 € million	2015 € million
Present value of defined benefit obligation at 1 January	496.4	484.8
Current service cost	10.5	12.1
Interest cost	11.2	13.1
Plan participants' contributions	4.5	4.9
Past service cost	(8.8)	(5.8)
Curtailement/settlement	(1.3)	(5.5)
Benefits paid	(25.3)	(26.4)
(Gain)/loss from change in demographic assumptions	0.4	(0.7)
(Gain)/loss from change in financial assumptions	56.2	(2.8)
Experience adjustments	3.2	(1.8)
Foreign currency translation	(21.4)	24.5
Present value of defined benefit obligation at 31 December	525.6	496.4
	2016 € million	2015 € million
Fair value of plan assets at 1 January	380.7	341.7
Interest income on plan assets	7.1	7.3
Return on plan assets excluding interest income	18.6	6.0
Actual employer's contributions	16.2	16.1
Actual participant's contributions	4.5	4.9
Actual benefits paid	(15.4)	(12.4)
Settlement	(1.1)	(7.3)
Admin expenses	(0.3)	(0.3)
Foreign currency translation	(8.9)	24.7
Fair value of plan assets at 31 December	401.4	380.7

The present value and funded status of defined benefit obligations were as follows at 31 December:

	2016 € million	2015 € million
Present value of funded obligations	439.1	398.5
Fair value of plan assets	(401.4)	(380.7)
Defined benefit obligations of funded plans	37.7	17.8
Present value of unfunded obligations	86.5	97.9
Defined benefit obligations	124.2	115.7
Plus: amounts recognised within non-current assets (refer to Note 17)	–	2.2
Total defined benefit obligations	124.2	117.9

Funding levels are monitored in conjunction with the agreed contribution rate. The funding level of the funded plans as at 31 December 2016 was 91% (2015: 96%).

None of the plans have funded status surplus as at 31 December 2016 (31 December 2015: €2.2m) that is recognised as an asset on the basis that the Group has an unconditional right to future economic benefits either via a refund or a reduction in future contributions.

The movement in the defined benefit obligation recognised on the balance sheet was as follows:

	2016 € million	2015 € million
Defined benefit obligation as at 1 January	115.7	143.1
Expense recognised in the income statement	5.4	14.0
Remeasurements recognised in OCI	41.7	(11.1)
Employer contributions	(16.2)	(16.1)
Benefits paid	(9.9)	(14.0)
Foreign currency translation	(12.5)	(0.2)
Defined benefit obligation as at 31 December	124.2	115.7
Plus: amounts recognised within non-current assets (refer to Note 17)	–	2.2
Total defined benefit obligation as at 31 December	124.2	117.9

The expense recognised in the income statement comprised the following for the years ended 31 December:

	2016 € million	2015 € million
Service cost	1.5	8.1
Net interest cost on defined benefit liability / (asset)	4.1	5.8
Actuarial gain	(0.5)	(0.2)
Administrative expenses	0.3	0.3
Total	5.4	14.0

Defined benefit plan expense is included in staff costs and presented in cost of goods sold and operating expenses.

The assumptions (weighted average for the Group) used in computing the defined benefit obligation comprised the following for the years ended 31 December:

	2016 %	2015 %
Discount rate	1.9	2.6
Rate of compensation increase	2.7	2.9
Rate of pension increase	1.0	0.8
Life expectancy for pensioners at the age of 65 in years:		
Male	22	22
Female	24	24

Asset liability matching: Plan assets allocated to growth assets are monitored regularly to ensure they remain appropriate and in line with the Group's long-term strategy to manage the plans. As the plans mature, the level of investment risk will be reduced by investing more in assets such as bonds that better match the liabilities.

Notes to the Consolidated Financial Statements continued

20. Provisions and employee benefits continued

Pension plan assets are invested in different asset classes in order to maintain a balance between risk and return. Investments are well diversified to limit the financial effect of the failure of any individual investment. Through its defined benefit plans the Group is exposed to a number of risks, as outlined below:

Asset volatility: The liabilities are calculated using a discount rate set with reference to corporate bond yields; if assets underperform this yield, this will create a deficit. The Northern Ireland, the Republic of Ireland and Swiss plans hold a significant proportion of growth assets (equities) which are expected to outperform corporate bonds in the long term while providing volatility and risk in the short term.

Changes in bond yields: A decrease in corporate bond yields will increase the plan liabilities, although this will be partially offset by an increase in the value of the plans' bond holdings. Whereas an increase in corporate bond yields will decrease the plan liabilities, although this will be partially offset by a decrease in the value of the plans' bond holdings.

Inflation: The Northern Ireland, the Republic of Ireland and Swiss plans' benefit obligations are linked to inflation, and higher inflation will lead to higher liabilities (although, in most cases, caps on the level of inflationary increases are in place to protect against extreme inflation). The majority of the assets are either unaffected by or loosely correlated with inflation, meaning that an increase in inflation will also increase the deficit.

Life expectancy: The majority of the pension plans' obligations are to provide benefits for the life of the member, so increases in life expectancy will result in an increase in the liabilities.

The sensitivity analysis presented below is based on a change in assumption while all other assumptions remain constant.

	Impact on defined benefit obligation as at 31 December 2016		
	Change in assumptions	Increase in assumption	Decrease in assumption
Discount rate	0.50%	⬇ 8.7%	⬆ 10.0%
Rate of compensation increase	0.50%	⬆ 2.2%	⬇ 2.1%
Rate of pension increase	0.50%	⬆ 5.0%	⬇ 2.4%
Life expectancy	1 year	⬆ 2.6%	⬇ 2.5%

Plan assets are invested as follows:

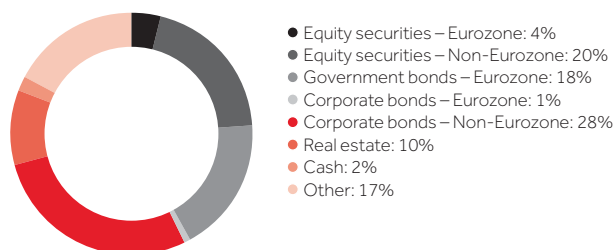

The assets of funded plans are generally held in separately administered trusts, either as specific assets or as a proportion of a general fund, or are insurance contracts. Plan assets held in trust are governed by local regulations and practice in each country. The category "other" mainly includes investments in funds holding a portfolio of assets. Plan assets relate predominantly to quoted financial instruments.

Equity securities were not invested in ordinary shares of the Company as at 31 December 2016 or 31 December 2015.

Assets category 2016 (%)

Assets category 2015 (%)

Defined contribution plans

The expense recognised in the income statement in 2016 for the defined contribution plan is €19.0m (2015: €22.2m). This is included in employee costs and recorded in cost of goods sold and operating expenses.

21. Offsetting financial assets and financial liabilities

Accounting policy

The Group offsets financial assets and financial liabilities to the net amount reported in the balance sheet when it currently has a legally enforceable right to offset the recognised amounts and it intends to settle on a net basis or to realise the asset and settle the liability simultaneously. The legally enforceable right must not be contingent on future events and must be enforceable in the normal course of business and in the event of default, insolvency or bankruptcy of the company or the counterparty.

The Group enters into derivative transactions under International Swaps and Derivatives Association (ISDA) master netting agreements or other similar agreements. In general, under such agreements the counterparties can elect to settle into one single net amount the aggregated amounts owed by each counterparty on a single day with respect of all outstanding transactions of the same currency and the same type of derivative. In the event of default or early termination all outstanding transactions under the agreement are terminated and subject to any set-off. These agreements do not meet all of the IAS 32 criteria for offsetting in the balance sheet as the Group does not have any current legally enforceable right to offset amounts since the right can only be applied if elected by both counterparties.

The financial assets and financial liabilities presented below are subject to offsetting, enforceable master netting or similar agreements. The column "Net amount" shows the impact on the Group's balance sheet if all set-off rights were exercised.

a) Financial assets

As at 31 December 2016

	Gross amounts of recognised financial assets € million	Gross amounts of recognised financial liabilities set off in the balance sheet € million	Net amounts of financial assets presented in the balance sheet € million	Related amounts not set off in the balance sheet	
				Financial instruments € million	Net amount € million
Derivative financial assets	16.0	–	16.0	(8.3)	7.7
Cash and cash equivalents	573.2	–	573.2	–	573.2

Total	1,369.9	(53.1)	1,316.8	(8.3)	1,308.5

As at 31 December 2015

	Gross amounts of recognised financial assets € million	Gross amounts of recognised financial liabilities set off in the balance sheet € million	Net amounts of financial assets presented in the balance sheet € million	Related amounts not set off in the balance sheet	
				Financial instruments € million	Net amount € million
Derivative financial assets	23.5	–	23.5	(5.0)	18.5
Cash and cash equivalents	487.4	–	487.4	–	487.4
Trade receivables	718.9	(54.9)	664.0	–	664.0
Total	1,229.8	(54.9)	1,174.9	(5.0)	1,169.9

Notes to the Consolidated Financial Statements continued

21. Offsetting financial assets and financial liabilities continued

b) Financial liabilities

As at 31 December 2016

	Gross amounts of recognised financial liabilities € million	Gross amounts of recognised financial assets set off in the balance sheet € million	Net amounts of financial liabilities presented in the balance sheet € million	Financial instruments € million	Net amount € million
Derivative financial liabilities	15.5	–	15.5	(8.3)	7.2
Trade payables	589.8	(53.1)	536.7	–	536.7
Total	605.3	(53.1)	552.2	(8.3)	543.9

As at 31 December 2015

	Gross amounts of recognised financial liabilities € million	Gross amounts of recognised financial assets set off in the balance sheet € million	Net amounts of financial liabilities presented in the balance sheet € million	Financial instruments € million	Net amount € million
Derivative financial liabilities	55.4	–	55.4	(5.0)	50.4
Trade payables	540.0	(54.9)	485.1	–	485.1
Total	595.4	(54.9)	540.5	(5.0)	535.5

22. Business combinations

Accounting policy

The acquisition method of accounting is used to account for business combinations. The consideration transferred is the fair value of any asset transferred, shares issued and liabilities assumed. The consideration transferred includes the fair value of any asset or liability resulting from a contingent consideration arrangement. Identifiable assets acquired and liabilities and contingent liabilities assumed are measured initially at their fair values at the acquisition date. The excess of the consideration transferred and the fair value of non-controlling interest over the net assets acquired and liabilities assumed is recorded as goodwill. All acquisition-related costs are expensed as incurred.

For each business combination, the Group elects whether it measures the non-controlling interest in the acquiree either at fair value or at the proportionate share of the acquiree's identifiable net assets.

Acquisition of controlling interest

On 1 April 2016, the Group acquired 100% of Neptūno Vandeny, UAB, the leading bottled water company in Lithuania, for a consideration of €19.5 million, including the assumption of debt of €1.0 million. The acquisition includes the mineral water brand 'Neptūnas' and is expected to increase the Group's market share in the still drinks category in Lithuania. Details of the acquisition are as follows:

	Acquiree's carrying amount before acquisition € million	Fair value adjustments € million	Fair value € million
Trademark	–	7.8	7.8
Water rights	–	8.8	8.8
Property, plant and equipment	2.4	0.4	2.8
Inventories	0.1	–	0.1
Other current assets	1.1	–	1.1
Short-term borrowings	(1.0)	–	(1.0)
Other current liabilities	(0.7)	–	(0.7)
Deferred tax liabilities	–	(2.6)	(2.6)
Net identifiable assets acquired	1.9	14.4	16.3
Goodwill arising on acquisition			3.2
Cash paid to former shareholders			19.5

The acquisition resulted in the Group recording €3.2m of goodwill, €7.8m of trademark and €8.8m of water rights in its Developing markets segment. The goodwill arising from the acquisition of Neptūno Vandenys, UAB is attributed to expected future cash flows (including the effect of synergies) in excess of the value of net identifiable assets.

The acquired business contributed net sales revenue of €3.8m and net profit of €1.4m to the Group for the period from 1 April 2016 to 31 December 2016. If the acquisition had occurred on 1 January 2016, consolidated Group net sales revenue and consolidated Group profit after tax for year ended 31 December 2016 would have been higher by €1.0m and €0.5m respectively.

In December 2016, TCCC acquired 50% of the share capital of Neptūno Vandenys, UAB for a total consideration of €10.3m, of which €9.8m has been received and is included in line 'Net receipts from investments' in the consolidated cash flow statement. This transaction resulted in a joint venture between the Group and TCCC. The gain on the transaction was immaterial.

23. Financial risk management and financial instruments

Accounting policy

Derivative financial instruments

The Group uses derivative financial instruments, including currency, commodity and interest rate derivatives, to manage currency, commodity price and interest rate risk associated with the Group's underlying business activities. The Group does not enter into derivative financial instruments for trading activity purposes.

All derivative financial instruments are initially recognised on the balance sheet at fair value and are subsequently remeasured at their fair value. Changes in the fair value of derivative financial instruments are recognised at each reporting date either in the income statement or in equity, depending on whether the derivative financial instrument qualifies for hedge accounting, and if so, whether it qualifies as a fair value hedge or a cash flow hedge.

Derivatives embedded in host contracts are accounted for as separate derivatives and recorded at fair value if:

- their economic characteristics and risks are not closely related to those of the host contracts;
- the host contracts are not designated as at fair value through profit or loss; and
- a separate instrument with the same terms as the embedded derivative meets the definition of a derivative.

These embedded derivatives are measured at fair value with changes in fair value recognised in profit or loss. Reassessment only occurs if there is either a change in the terms of the contract that significantly modifies the cash flows that would otherwise be required or a reclassification of a financial asset out of the fair value through profit or loss.

All derivative financial instruments that are not part of an effective hedging relationship (undesignated hedges) are classified as assets or liabilities at fair value through profit or loss ('FVTPL').

At the inception of a hedge transaction the Group documents the relationship between the hedging instrument and the hedged item, as well as its risk management objective and strategy for undertaking the hedge transaction. This process includes linking the derivative financial instrument designated as a hedging instrument to the specific asset, liability, firm commitment or forecast transaction. Both at the hedge inception and on an ongoing basis, the Group assesses and documents whether the derivative financial instrument used in the hedging transaction is highly effective in offsetting changes in fair value or cash flow of the hedged item.

Changes in the fair values of derivative financial instruments that are designated and qualify as fair value hedges and are effective are recorded in the income statement, together with the changes in the fair values of the hedged items that relate to the hedged risks. Changes in the fair value of derivative financial instruments that are designated and effective as hedges of future cash flows are recognised directly in other comprehensive income and the ineffective portion is recognised immediately in the income statement. Amounts accumulated in equity are recycled to the income statement as the related asset acquired or liability assumed affects the income statement. Changes in the fair values of derivative financial instruments that do not qualify for hedge accounting are recognised in the income statement as they arise.

Hedge accounting is discontinued when the hedging instrument expires or is sold, terminated, exercised, or no longer qualifies for hedge accounting. At that time, any cumulative gain or loss on the hedging instrument recognised in equity is retained in equity until the forecast transaction occurs. If a hedged transaction is no longer expected to occur, the net cumulative gain or loss recognised in equity is transferred to the income statement.

Regular purchases and sales of investments are recognised on the trade date, which is the day the Group commits to purchase or sell. The investments are recognised initially at fair value plus transaction costs, except in the case of FVTPL. For investments traded in active markets, fair value is determined by reference to stock exchange quoted bid prices. For other investments, fair value is estimated by reference to the current market value of similar instruments or by reference to the discounted cash flows of the underlying net assets.

Notes to the Consolidated Financial Statements continued

23. Financial risk management and financial instruments continued**Financial risk factors**

The Group's activities expose it to a variety of financial risks: market risk (including foreign currency risk, commodity price risk, interest rate risk), credit risk, liquidity risk and capital risk. The Group's overall risk management programme focuses on the volatility of financial markets and seeks to minimise potential adverse effects on the Group's cash flows. The Group uses derivative financial instruments to hedge certain risk exposures. Risk management is carried out by Group Treasury in a controlled manner, consistent with the Board of Directors' approved policies. Group Treasury identifies, evaluates and hedges financial risks in close co-operation with the Group's subsidiaries. The Board of Directors has approved the Treasury Policy and Chart of Authority, which together provide the control framework for all treasury and treasury-related transactions.

Market risk**a) Foreign currency risk**

The Group is exposed to the effect of foreign currency risk on future transactions, recognised monetary assets and liabilities that are denominated in currencies other than the local entity's functional currency, as well as net investments in foreign operations. Foreign currency forward, option and future contracts are used to hedge a portion of the Group's foreign currency risk. The majority of the foreign currency forward, option and future contracts have maturities of less than one year after the balance sheet date. The foreign currency risk arising from the investment in foreign operations is not hedged.

Management has set up a policy that requires Group companies to manage their foreign exchange risk against their functional currency. To manage their foreign exchange risk arising from future transactions and recognised monetary assets and liabilities, entities in the Group use foreign currency forward, option and future contracts transacted by Group Treasury. Group Treasury's risk management policy is to hedge, on an average coverage ratio basis, between 25% and 80% of anticipated cash flows for the next 12 months by using a layer strategy and 100% of balance sheet re-measurement risk in each major foreign currency without significant currency control. Each subsidiary designates contracts with Group Treasury as fair value hedges or cash flow hedges, as appropriate. External foreign exchange contracts are designated at Group level as hedges of foreign exchange risk on specific monetary assets, monetary liabilities or future transactions on a gross basis.

The following tables present details of the Group's sensitivity to reasonably possible increases and decreases in the Euro and US dollar against the relevant foreign currencies. In determining reasonable possible changes, the historical volatility over a 12-month period of the respective foreign currencies in relation to the Euro and the US dollar has been considered. The sensitivity analysis determines the potential gains and losses in the income statement or equity arising from the Group's foreign exchange positions as a result of the corresponding percentage increases and decreases in the Group's main foreign currencies relative to the Euro and the US dollar. The sensitivity analysis includes outstanding foreign currency denominated monetary items, external loans, and loans between operations within the Group where the denomination of the loan is in a currency other than the functional currency of the local entity.

23. Financial risk management and financial instruments continued

b) Commodity price risk

The Group is affected by the volatility of certain commodity prices (being mainly sugar, aluminium, PET and gas oil) in relation to certain raw materials necessary for the production of the Group's products.

Due to the significantly increased volatility of commodity prices, the Group's Board of Directors has developed and enacted a risk management strategy regarding commodity price risk and its mitigation. Although the Group continues to contract prices with suppliers in advance, to reduce its exposure to the effect of short-term changes in the price of sugar, aluminium, gas oil and PET, the Group hedges the market price of sugar, aluminium and gas oil using commodity swap contracts based on a rolling 36-month forecast. Group Treasury's risk management policy is to hedge a minimum of 50% and a maximum of 80% of commodity exposure for the next 12 months.

The following table presents details of the Group's income statement and equity sensitivity to increases and decreases in sugar, aluminium and gas oil prices. The table does not show the sensitivity to the Group's total underlying commodity exposure or the impact of changes in volumes that may arise from an increase or decrease in the respective commodity prices. The sensitivity analysis determines the potential effect on profit or loss and equity arising from the Group's commodity swap contract positions as a result of the reasonably possible increases or decreases of the respective commodity price.

2016 commodity price risk sensitivity to reasonably possible changes in the commodity price of relevant commodities

	% of historical volatility over a 12-month period per contract maturity	Commodity price increases with all other variables held constant		Commodity price decreases with all other variables held constant	
		(Gain)/loss in income statement € million	(Gain)/loss in equity € million	Loss/(gain) in income statement € million	Loss/(gain) in equity € million
Sugar	19.2%	(12.4)	–	12.4	–
Aluminium	16.4%	(6.7)	(1.1)	6.7	1.1
Aluminium Premium	19.2%	(0.4)	–	0.4	–
Gas oil	41.0%	(6.5)	–	6.5	–
		(26.0)	(1.1)	26.0	1.1

2015 commodity price risk sensitivity to reasonably possible changes in the commodity price of relevant commodities

	% of historical volatility over a 12-month period per contract maturity	Commodity price increases with all other variables held constant		Commodity price decreases with all other variables held constant	
		(Gain)/loss in income statement € million	(Gain)/loss in equity € million	Loss/(gain) in income statement € million	Loss/(gain) in equity € million
Sugar	19.9%	(10.8)	–	10.8	–
Aluminium	18.3%	(10.5)	(1.3)	10.5	1.3
Gas oil	33.4%	(5.5)	–	5.5	–
		(26.8)	(1.3)	26.8	1.3

c) Interest rate risk

The sensitivity analysis in the following table has been determined based on exposure to interest rates of both derivative and non-derivative instruments existing at the balance sheet date and assuming constant foreign exchange rates. For floating rate liabilities, the analysis is prepared assuming the amount of liability outstanding at the balance sheet date was outstanding for the whole year. A 50 basis point increase or decrease for 2016 (2015:100 basis point) represents management's assessment of a reasonably possible change in interest rates.

Interest rate risk sensitivity to reasonably possible changes in interest rates

	2016 € million		2015 € million	
	Loss/(gain) in income statement	(Gain)/loss in equity	Loss/(gain) in income statement	(Gain)/loss in equity
Increase in basis points	–	–	0.1	(53.7)
Decrease in basis points	–	–	(0.1)	58.4

The impact on the Group's equity in 2015 is attributable to the changes in the fair value of the forward starting swaps entered into in 2014 and settled in March 2016, designated as cash flow hedging instruments, assuming 100% hedge effectiveness.

Credit risk

The Group has limited concentration of credit risk across trade and financial counterparties. Policies are in place to ensure that sales of products and services on credit are made to customers with an appropriate credit history. The Group has policies that limit the amount of credit exposure to any single financial institution.

The Group's maximum exposure to credit risk in the event that counterparties fail to perform their obligations at 31 December 2016 in relation to each class of recognised financial asset is the carrying amount of those assets as indicated on the balance sheet.

If credit is granted to customers, their credit quality is normally assessed using either external agencies and/or historic experience. Credit limits are set accordingly. Further information regarding credit risk exposure is described in Note 17.

With respect to derivative financial instruments, credit risk arises from the potential failure of counterparties to meet their obligations under the contract or arrangement. The Group's maximum credit risk exposure for each derivative instrument is the carrying amount of the derivative. In addition, the Group regularly makes use of time deposits to invest excess cash balances and to diversify its counterparty risk. As at 31 December 2016, an amount of €243.5m is invested in time deposits (refer to Note 24).

The Group only undertakes investment and derivative transactions with banks and financial institutions that have a minimum credit rating of 'BBB-' from Standard & Poor's and 'Baa3' from Moody's. The Group also uses Credit Default Swaps of a counterparty in order to measure in a timelier way the creditworthiness of a counterparty and set up its counterparties in tiers in order to assign maximum exposure and tenor per tier. If the Credit Default Swaps of a certain counterparty exceed 400 basis points the Group will stop trading derivatives with that counterparty and will try to cancel any deposits on a best-efforts basis.

Liquidity risk

The Group actively manages liquidity risk to ensure there are sufficient funds available for any short-term and long-term commitments. Bank overdrafts and bank facilities, both committed and uncommitted, are used to manage this risk.

Ultimate responsibility for liquidity risk management rests with the Board of Directors, which has built an appropriate liquidity risk management framework for the management of the Group's short-, medium- and long-term funding and liquidity requirements. The Group manages liquidity risk by maintaining adequate cash reserves and committed banking facilities, access to the debt and equity capital markets, and by continuously monitoring forecasted and actual cash flows. In Note 24, the undrawn facilities that the Group has at its disposal to manage liquidity risk are discussed under the headings 'commercial paper programme' and 'committed credit facilities'.

The following tables detail the Group's remaining contractual maturities for its financial liabilities. The tables include both interest and principal undiscounted cash flows, assuming that interest rates remain constant from 31 December 2016.

	Up to one year € million	One to two years € million	Two to five years € million	Over five years € million
Borrowings	193.4	43.7	903.6	691.9
Derivative liabilities	14.2	1.0	0.3	–
Trade and other payables	1,488.2	1.3	0.2	6.7
As at 31 December 2016	1,695.8	46.0	904.1	698.6
	Up to one year € million	One to two years € million	Two to five years € million	Over five years € million
Borrowings	833.8	52.1	908.9	86.7
Derivative liabilities	40.9	11.8	2.7	–
Trade and other payables	1,502.4	–	–	7.2
As at 31 December 2015	2,377.1	63.9	911.6	93.9

When relevant the Group hedges exposures to changes in the fair value of debt, as well as in the foreign exchange cash flows of debt, by using a combination of interest rate and cross currency swap contracts. The impact of these instruments has been included in the aggregate interest and principal undiscounted cash flows related to the underlying borrowings presented above.

Notes to the Consolidated Financial Statements continued

23. Financial risk management and financial instruments continued**Capital risk**

Adjusted EBITDA is calculated by adding back to operating profit the depreciation and impairment of property, plant and equipment, the amortisation and impairment of intangible assets, the employee share option and performance share costs and other non-cash items, if any. Comparable adjusted EBITDA refers to adjusted EBITDA excluding restructuring expenses and the unrealised gains or losses resulting from the mark-to-market valuation of derivatives and embedded derivatives related to commodity hedging.

Refer to Note 24 for definition of net debt.

The Group's objectives when managing capital are to safeguard the Group's ability to continue as a going concern and to maintain an optimal capital structure to reduce the cost of capital.

In order to maintain or adjust the capital structure, the Group may increase or decrease debt, issue or buy back shares, adjust the amount of dividends paid to shareholders, or return capital to shareholders.

The Group's goal is to maintain a conservative financial profile. This is evidenced by the credit ratings maintained with Standard & Poor's and Moody's. In May 2016, Standard & Poor's changed the outlook from stable to positive and affirmed Coca-Cola HBC's 'BBB+' long-term, 'A2' short-term corporate credit ratings. The corporate credit ratings by Moody's remained unchanged, 'Baa1' long-term, 'P2' short-term and stable outlook after the latest assessment in November 2016.

The Group monitors its financial capacity and credit ratings by reference to a number of key financial ratios including net debt to comparable adjusted EBITDA, which provides a framework within which the Group's capital base is managed. This ratio is calculated as net debt divided by comparable adjusted EBITDA. The Group's medium- to long-term aim is to maintain the net debt to comparable adjusted EBITDA ratio within a 1.5 to 2.0 range.

The ratios as at 31 December were as follows:

	2016 € million	2015 € million
Net debt (refer to Note 24)	1,051.4	1,217.1
Operating profit	506.3	418.2
Depreciation and impairment of property, plant and equipment	332.4	340.2
Amortisation of intangible assets	0.4	0.4
Employee share options and performance shares	8.1	8.8
Other non-cash items included in operating income	(1.3)	(1.3)
Adjusted EBITDA	845.9	766.3
Restructuring expenses (refer to Note 8)	19.9	36.3
Unrealised commodity derivatives	(26.5)	1.0
Total comparable adjusted EBITDA	839.3	803.6
Net debt / comparable adjusted EBITDA ratio	1.25	1.51

Hedging activity**a) Cash flow hedges**

The fair values of derivative financial instruments as at 31 December designated as cash flow hedges were:

	Contracts with positive fair values		Contracts with negative fair values	
	2016 € million	2015 € million	2016 € million	2015 € million
Foreign currency forward contracts	1.0	1.8	(4.0)	(0.5)
Foreign currency option contracts	0.3	6.5	–	–
Forward starting swap contracts	–	–	–	(24.6)
Commodity swap contracts	0.4	–	(0.1)	(0.8)
Total contracts	1.7	8.3	(4.1)	(25.9)

Cash flows from the Group's cash flow hedges at 31 December 2016 are expected to occur and, accordingly, affect profit or loss in 2017, except for the commodity swap contracts, for which cash flows are expected to occur and affect profit or loss between 2017 and 2019. The net amount reclassified from other comprehensive income to the income statement for the year amounted to a €12.8m loss (2015: €4.6m loss), out of which €5.2m was recorded in interest expense (2015: €4.6m loss) and €7.6m was recorded in cost of goods sold (2015: €nil)

b) Fair value hedges

The fair values of derivative financial instruments as at 31 December designated as fair value hedges were:

	Contracts with positive fair values		Contracts with negative fair values	
	2016 € million	2015 € million	2016 € million	2015 € million
Foreign currency forward contracts	–	0.8	(1.7)	–
Foreign currency option contracts	–	1.8	–	–
Total contracts	–	2.6	(1.7)	–

The fair value net loss of the foreign currency forward and option contracts used as fair value hedging instruments was €4.2m in 2016 (2015: €4.1m net gain), which was recognised in operating expenses and offset with a similar gain on the hedged item attributable to foreign currency risk.

c) Undesignated hedges

The fair values of derivative financial instruments as at 31 December which economically hedge the Group's risks and for which hedge accounting has not been applied were:

	Contracts with positive fair values		Contracts with negative fair values	
	2016 € million	2015 € million	2016 € million	2015 € million
Foreign currency forward contracts	1.5	4.7	(4.6)	(1.5)
Foreign currency option contracts	–	0.3	–	–
Foreign currency future contracts	0.3	–	–	–
Embedded derivatives	3.3	6.2	–	–
Commodity swap contracts	9.2	1.4	(5.1)	(28.0)
Total contracts	14.3	12.6	(9.7)	(29.5)

The net gains on foreign currency and commodity derivative contracts at fair value through profit and loss (for which hedge accounting was not applied) amounted to a €59.1m gain (2015: €24.9m loss) of which a €17.4m gain was recorded in cost of goods sold (2015: €19.7m loss) and a €41.7m gain in operating expenses (2015: €5.2m loss).

Derivative financial instruments

The derivative financial instruments are included in the Group's balance sheet as follows:

	Assets		Liabilities	
	2016 € million	2015 € million	2016 € million	2015 € million
Current				
Foreign currency forward contracts	2.5	7.3	(10.3)	(2.0)
Foreign currency option contracts	0.3	8.6	–	–
Foreign currency future contracts	0.3	–	–	–
Commodity swap contracts	4.8	1.0	(3.9)	(14.3)
Forward starting swap contracts	–	–	–	(24.6)
Total current	7.9	16.9	(14.2)	(40.9)
Non-current				
Commodity swap contracts	4.8	0.4	(1.3)	(14.5)
Forward starting swap contracts	–	–	–	–
Embedded derivatives	3.3	6.2	–	–
Total non-current	8.1	6.6	(1.3)	(14.5)

Notes to the Consolidated Financial Statements continued

Total	3,214.1	29.5	25.9	3,269.5	2,324.8	944.7

Foreign currency derivatives

The net notional principal amounts of the outstanding foreign currency forward contracts at 31 December 2016 totalled €289.9m (2015: €284.2m). The net notional principal amounts of the outstanding foreign currency option contracts at 31 December 2016 totalled €13.8m (2015: €132.2m). The net notional principal amounts of the outstanding foreign currency future contracts at 31 December 2016 totalled €7.6m (2015: €nil).

Commodity swap contracts

The notional principal amounts of the outstanding commodity swap contracts at 31 December 2016 totalled €125.2m (2015: €163.7m).

Forward starting swap contracts

The Group entered into forward starting swap contracts of €500.0m in 2014 to hedge the interest rate risk related to its Euro denominated forecasted issuance of fixed rate debt in March 2016. In August 2015 the Group entered into additional forward starting swap contracts of €100.0m. In March 2016 the forward starting swap contracts were settled and at the same time the new note was issued, the accumulated loss of €55.4m recorded in other comprehensive income is being amortised to the income statement over the term of the new note (refer to Note 24).

Embedded derivatives

During 2015 the Group recognised embedded derivatives whose risks and economic characteristics were not considered to be closely related to the commodity contract in which they were embedded. The fair value of the embedded derivatives as at 31 December 2016 amounted to a financial asset of €3.3m (2015: €6.2m).

Fair values of financial assets and liabilities

For financial instruments such as cash, deposits, debtors and creditors, investments, loans payable to related parties, short-term borrowings (excluding the current portion of bonds and notes payable) and other financial liabilities (other than bonds and notes payable), carrying values are a reasonable approximation of their fair values. According to the fair value hierarchy, the financial instruments measured at fair value are classified as follows:

Level 1

The fair value of available-for-sale listed equity securities is based on quoted market prices at the reported date. The fair value of bonds is based on quoted market prices at the reported date.

Level 2

The fair value of foreign currency forward, option and future contracts, commodity swap contracts, bonds and notes payable, interest rate swap contracts, forward starting swap contracts, embedded foreign currency derivatives and cross currency swap contracts is determined by using valuation techniques. These valuation techniques maximise the use of observable market data. The fair value of the foreign currency forward, option and future contracts, commodity swap contracts, embedded foreign currency derivatives and cross currency swap contracts is calculated by reference to quoted forward exchange, deposit rates and forward rate curve of the underlying commodity at the reported date for contracts with similar maturity dates. The fair value of interest rate option contracts is calculated by reference to the Black-Scholes valuation model and implied volatilities. The fair value of interest rate swap contracts is determined as the difference in the present value of the future interest cash inflows and outflows based on observable yield curves.

Level 3

The fair value of available-for-sale unlisted investments is determined through the use of estimated discounted cash flows.

Notes to the Consolidated Financial Statements continued

23. Financial risk management and financial instruments continued

The following table provides the fair value hierarchy in which fair value measurements are categorised for assets and liabilities measured at fair value as at 31 December 2016:

	Level 1 € million	Level 2 € million	Level 3 € million	Total € million
Financial assets at FVTPL				
Foreign currency forward contracts	–	1.5	–	1.5
Embedded derivatives	–	3.3	–	3.3
Foreign currency future contracts	–	0.3	–	0.3
Commodity swap contracts	–	9.2	–	9.2
Derivative financial assets used for hedging				
<i>Cash flow hedges</i>				
Foreign currency forward contracts	–	1.0	–	1.0
Foreign currency option contracts	–	0.3	–	0.3
Commodity swap contracts	–	0.4	–	0.4
Available-for-sale financial assets				
Equity securities	0.9	–	2.7	3.6
Total financial assets	0.9	16.0	2.7	19.6
Financial liabilities at FVTPL				
Foreign currency forward contracts	–	(4.6)	–	(4.6)
Commodity swap contracts	–	(5.1)	–	(5.1)
Derivative financial liabilities used for hedging				
<i>Fair value hedges</i>				
Foreign currency forward contracts	–	(1.7)	–	(1.7)
<i>Cash flow hedges</i>				
Foreign currency forward contracts	–	(4.0)	–	(4.0)
Commodity swap contracts	–	(0.1)	–	(0.1)
Total financial liabilities	–	(15.5)	–	(15.5)

During 2016 the Group acquired an equity investment of €2.2m classified within Level 3 hierarchy. There were no transfers between Level 1 and Level 2 in the period.

The following table provides the fair value hierarchy in which fair value measurements are categorised for assets and liabilities measured at fair value as at 31 December 2015:

	Level 1 € million	Level 2 € million	Level 3 € million	Total € million
Financial assets at FVTPL				
Foreign currency forward contracts	–	4.7	–	4.7
Foreign currency option contracts	–	0.3	–	0.3
Embedded derivatives	–	6.2	–	6.2
Commodity swap contracts	–	1.4	–	1.4
Derivative financial assets used for hedging				
<i>Fair value hedges</i>				
Foreign currency forward contracts	–	0.8	–	0.8
Foreign currency option contracts	–	1.8	–	1.8
<i>Cash flow hedges</i>				
Foreign currency forward contracts	–	1.8	–	1.8
Foreign currency option contracts	–	6.5	–	6.5
Available-for-sale financial assets				
Equity securities	1.2	–	0.5	1.7
Total financial assets	1.2	23.5	0.5	25.2
Financial liabilities at FVTPL				
Foreign currency forward contracts	–	(1.5)	–	(1.5)
Commodity swap contracts	–	(28.0)	–	(28.0)
Derivative financial liabilities used for hedging				
<i>Cash flow hedges</i>				
Foreign currency forward contracts	–	(0.5)	–	(0.5)
Forward starting swap contracts	–	(24.6)	–	(24.6)
Commodity swap contracts	–	(0.8)	–	(0.8)
Total financial liabilities	–	(55.4)	–	(55.4)

There were no material changes in fair value measurements for Level 3 items for the year ended 31 December 2015. There were no transfers between Level 1 and Level 2 in the period.

Notes to the Consolidated Financial Statements continued

24. Net debt**Accounting policy**

Borrowings are initially recognised at the fair value net of transaction costs incurred.

After initial recognition, all interest-bearing borrowings are subsequently measured at amortised cost. Amortised cost is calculated using the effective interest rate method whereby any discount, premium or transaction costs associated with a borrowing are amortised to the income statement over the borrowing period.

Refer also to Note 14 for accounting policy on finance leases.

Cash and cash equivalents comprise cash balances and short-term, highly liquid investments that are readily convertible to known amounts of cash and which are subject to insignificant risk of change in value. Bank overdrafts are classified as short-term borrowings in the balance sheet and for the purpose of the cash flow statement.

Net debt is defined as current borrowings plus non-current borrowings less cash and cash equivalents.

Net debt for the years ended 31 December comprised:

	2016 € million	2015 € million
Current borrowings	156.5	781.5
Non-current borrowings	1,468.1	923.0
Less: Cash and cash equivalents	(573.2)	(487.4)
Net debt	1,051.4	1,217.1

a) Borrowings

The Group held the following borrowings as at 31 December:

	2016 € million	2015 € million
Current portion of long-term bonds, bills and unsecured notes	–	599.8
Commercial paper	108.5	173.5
Loan payable to related parties (refer to Note 26)	4.1	0.2
Other borrowings	36.4	–
	149.0	773.5
Obligations under finance leases falling due within one year	7.5	8.0
Total borrowings falling due within one year	156.5	781.5
Borrowings falling due within one to two years		
Loan payable to related parties (refer to Note 26)	–	17.4
Borrowings falling due within two to five years		
Bonds, bills and unsecured notes	796.0	794.9
Loan payable to related parties (refer to Note 26)	–	13.3
Borrowings falling due in more than five years		
Bonds, bills and unsecured notes	595.8	–
	1,391.8	825.6
Obligations under finance leases falling due in more than one year	76.3	97.4
Total borrowings falling due after one year	1,468.1	923.0
Total borrowings	1,624.6	1,704.5

Commercial paper programme

In October 2013 the Group established a €1.0bn Euro-commercial paper programme ("CP programme") which was updated in September 2014, to further diversify its short-term funding sources. The Euro-commercial paper notes may be issued either as non-interest-bearing notes sold at a discount or as interest-bearing notes at a fixed or floating rate. All commercial paper issued under the CP programme must be repaid within 7 to 364 days. The CP programme has been granted the Short Term Euro Paper label ("STEP") and commercial paper is issued through Coca-Cola HBC's 100%-owned subsidiary Coca-Cola HBC Finance B.V. and is fully, unconditionally and irrevocably guaranteed by Coca-Cola HBC AG. The outstanding amount under the CP programme as at 31 December 2016 was €108.5m (2015: €173.5m).

Committed credit facilities

In June 2015, the Group replaced its then-existing €500.0m syndicated revolving credit facility with a new €500.0m syndicated loan facility, provided by various financial institutions, expiring on 24 June 2020, with the option to be extended for one more year. In June 2016 the Company exercised its option and the banks agreed to extend the facility for one more year until 24 June 2021. This facility can be used for general corporate purposes and carries a floating interest rate over EURIBOR and LIBOR. No amounts have been drawn under the syndicated loan facility since inception. The borrower in the syndicated loan facility is Coca-Cola HBC's 100%-owned subsidiary Coca-Cola HBC Finance B.V. and it is fully, unconditionally and irrevocably guaranteed by Coca-Cola HBC AG and Coca-Cola HBC Holdings B.V. and is not subject to any financial covenants.

Euro medium-term note programme

In June 2013 the Group established a new €3.0bn Euro medium-term note programme (the EMTN Programme). The EMTN programme was updated in September 2014 and then again in September 2015. Notes are issued under the EMTN programme through Coca-Cola HBC's 100%-owned subsidiary Coca-Cola HBC Finance B.V. and are fully, unconditionally and irrevocably guaranteed by Coca-Cola HBC AG.

In June 2013, Coca-Cola HBC Finance B.V. completed the issue of €800.0m 2.375% seven-year fixed rate Euro-denominated notes. The net proceeds of the new issue, were used to repay the US\$500.0m notes due in September 2013 and partially repay €183.0m of the 7.875% five-year fixed rate notes due in January 2014.

In March 2016, Coca-Cola HBC Finance B.V. completed the issue of a €600.0m Euro-denominated fixed rate bond maturing in November 2024. The coupon rate of the new bond is 1.875% which, including the amortisation of the loss on the forward starting swap contracts over the term of the fixed rate bond, results in an effective interest rate of 2.99% (refer to Note 23). The net proceeds of the new issue were used to partially repay €214.6m of the 4.25% seven-year fixed rate notes due in November 2016, the remaining €385.4m was repaid in November 2016 upon its maturity.

As at 31 December 2016, a total of €1.4bn in notes issued under the EMTN programme were outstanding.

Summary of notes outstanding as at 31 December

Notes	Start date	Maturity date	Fixed coupon	Book value		Fair value	
				2016 € million	2015 € million	2016 € million	2015 € million
€300m	16 November 2009	16 November 2016	4.250%	–	299.8	–	310.3
€300m	2 March 2011	16 November 2016	4.250%	–	300.0	–	310.3
€800m	18 June 2013	18 June 2020	2.375%	796.0	794.9	855.9	845.2

24. Net debt continued

Obligations under finance leases

Future minimum lease payments under finance leases together with the present value of the net minimum lease payments as at 31 December were as follows:

	2016 € million		2015 € million	
	Minimum payments	Present value of payments	Minimum payments	Present value of payments
Less than one year	13.7	7.5	15.8	8.0
Later than one year but less than two years	13.5	7.7	15.7	8.3
Later than two years but less than three years	11.9	6.7	15.6	8.8
Later than three years but less than four years	11.9	7.1	14.1	7.7
Later than four years but less than five years	11.9	7.5	14.1	8.2
Later than five years	62.6	47.3	86.7	64.4
Total minimum lease payments	125.5	83.8	162.0	105.4
Future finance charges on finance leases	(41.7)	–	(56.6)	–
Present value of minimum lease payments	83.8	83.8	105.4	105.4

Total borrowings at 31 December were held in the following currencies:

	Current		Non-current	
	2016 € million	2015 € million	2016 € million	2015 € million
Euro	122.8	777.3	1,416.1	852.3
Croatian kuna	15.3	–	–	–
Russian rouble	11.6	–	–	–
US dollar	4.5	1.8	28.4	42.3
UK sterling	1.3	1.4	10.9	14.2
Polish zloty	0.9	0.9	12.7	14.2
Other	0.1	0.1	–	–
Total borrowings	156.5	781.5	1,468.1	923.0

The carrying amounts of interest bearing borrowings held at fixed and floating interest rate as at 31 December 2016, as well as the weighted average interest rates and maturities of fixed rate borrowings, were as follows:

	Fixed interest rate	Floating interest rate	Total
	€ million	€ million	€ million
Euro	1,515.9	23.0	1,538.9
US dollar	30.2	2.7	32.9
Polish zloty	–	13.6	13.6
UK sterling	–	12.2	12.2
Russian rouble	–	11.6	11.6
Other	–	0.1	0.1
Total interest bearing borrowings	1,546.1	63.2	1,609.3

Other borrowings of €15.3m are subject to factoring agreements, based on which the customers are liable to the interest being charged (refer to Note 17).

Financial liabilities represent fixed and floating rate borrowings held by the Group. The Group's policy is to hedge exposures to changes in the fair value of debt and interest rates by using a combination of cross-currency swap contracts, fixed-to-floating-rate interest rate swap contracts and interest rate option contracts. The weighted average interest rate of the fixed rate Euro liabilities is 2.4% and the weighted average maturity for which the interest rate is fixed is 5.0 years.

The transactions with related parties bear floating interest based on the following benchmark rates:

Euro	6 month EURIBOR (European inter-bank offered rate)
------	--

b) Cash and cash equivalents

Cash and cash equivalents as at 31 December comprise the following:

	2016 € million	2015 € million
Cash at bank, in transit and in hand	329.7	124.7
Short-term deposits	243.5	362.7
Total cash and cash equivalents	573.2	487.4

Cash and cash equivalents are held in the following currencies:

	2016 € million	2015 € million
Euro	400.7	392.6
Nigerian naira	110.7	35.7
Russian rouble	11.7	7.8
Serbian dinar	9.1	1.3
UK sterling	6.6	3.9
Polish zloty	6.2	5.4
Hungarian forint	6.1	2.7
Romanian leu	5.6	11.6
Swiss franc	4.6	6.8
US dollar	3.3	4.8
Ukrainian hryvnia	2.5	3.1
Belarusian rouble	1.4	3.1
Other	4.7	8.6
Total cash and cash equivalents	573.2	487.4

Cash and cash equivalents includes an amount of €110.7 million equivalent in Nigerian naira and €2.1 million held by the Group's subsidiary, Nigerian Bottling Company Ltd, including €18.2 million equivalent in Nigerian naira, which relates to the outstanding balance of the bank account held for the repayment of its former minority shareholders, following the 2011 acquisition of non-controlling interests.

Cash and cash equivalents held by our subsidiaries in Greece of €10.1 million were subject to capital controls as at 31 December 2016.

The amount of dividends payable to the Company by its operating subsidiaries is subject to, among other restrictions, general limitations imposed by the corporate laws and exchange control restrictions of the respective jurisdictions where those subsidiaries are organised and operate. Also, there are fund transfer restrictions in certain countries in which we operate, in particular Belarus, Greece, Serbia and Ukraine, where these restrictions do not have a material impact on the Group's liquidity, as the amounts of cash and cash equivalents held in such countries are generally retained for capital expenditure, working capital and dividend distribution purposes. Fund transfer restrictions are also applicable in Nigeria; furthermore, the tight liquidity in the foreign exchange market in Nigeria has significantly limited our ability to execute payments in foreign currency, leading to a temporarily high Nigerian naira cash balance. Intra group dividends paid by certain of our subsidiaries are also subject to withholding taxes.

Notes to the Consolidated Financial Statements continued

25. Equity**Accounting policies****Share capital**

Coca-Cola HBC has only one class of shares, ordinary shares. When new shares are issued, they are recorded in share capital at their par value. The excess of the issue price over the par value is recorded to the share premium reserve. Incremental external costs directly attributable to the issue of new shares or to the process of returning capital to shareholders are recorded in equity as a deduction, net of tax, in the share premium reserve.

Dividends

Dividends are recorded in the Group's consolidated financial statements in the period in which they are approved by the Group's shareholders.

a) Share capital, share premium and Group reorganisation reserve

	Number of shares (authorised and issued)	Share capital € million	Share premium € million	Group reorganisation reserve € million
Balance as at 1 January 2015	367,819,247	1,998.1	5,157.6	(6,472.1)
Shares issued to employees exercising stock options (refer to Note 27)	322,050	2.0	3.1	–
Dividends	–	–	(132.4)	–
Balance as at 31 December 2015	368,141,297	2,000.1	5,028.3	(6,472.1)
Shares issued to employees exercising stock options (refer to Note 27)	1,499,341	9.1	12.5	–
Cancellation of shares	(3,000,000)	(18.4)	(40.1)	–
Dividends	–	–	(146.1)	–
Balance as at 31 December 2016	366,640,638	1,990.8	4,854.6	(6,472.1)

The Group reorganisation reserve relates to the impact from adjusting share capital, share premium and treasury shares to depict the respective statutory amounts of Coca-Cola HBC on 25 April 2013, together with the transaction costs incurred by the latter, relating primarily to the re-domiciliation of the Group and its admission to listing in the premium segment of the London Stock Exchange, following successful completion of the voluntary share exchange offer (refer also to Note 1). These transactions were treated as a reorganisation of an existing entity that has not changed the substance of the reporting entity.

In 2015, the share capital of Coca-Cola HBC increased by the issue of 322,050 new ordinary shares following the exercise of stock options pursuant to the Coca-Cola HBC AG's employees' stock option plan. Total proceeds from the issuance of the shares under the stock option plan amounted to €5.1m.

On 23 June 2015, the Annual General Meeting adopted a proposal for share buy-back of up to 3,000,000 ordinary shares of Coca-Cola HBC for the purpose of neutralising the dilution resulting from share issues under Coca-Cola HBC's equity compensation plans. The programme was completed in full during 2015 for a consideration of €58.5m. On 21 June 2016, the Annual General Meeting approved the proposal to reduce the share capital of Coca-Cola HBC AG by cancelling the 3,000,000 treasury shares acquired as part of the share buy-back programme described above. The respective reduction of the share capital was completed in September 2016.

In 2016, the share capital of Coca-Cola HBC increased by the issue of 1,499,341 new ordinary shares following the exercise of stock options pursuant to the Coca-Cola HBC AG's employees' stock option plan. Total proceeds from the issuance of the shares under the stock option plan amounted to €21.6m.

Following the above changes, as at 31 December 2016 the share capital of the Group amounted to €1,990.8m and comprised 366,640,638 shares with a nominal value of CHF 6.70 each.

b) Dividends

The shareholders of Coca-Cola HBC AG approved the 2015 dividend distribution of €0.36 per share at the Annual General Meeting held on 23 June 2015. The total dividend amounted to €132.4m and was paid on 28 July 2015. Of this, an amount of €1.3m related to shares held by the Group.

The shareholders of Coca-Cola HBC AG approved the 2016 dividend distribution of €0.40 per share at the Annual General Meeting held on 21 June 2016. The total dividend amounted to €146.1m and was paid on 26 July 2016. Of this, an amount of €1.4m related to shares held by the Group.

The Board of Directors of Coca-Cola HBC AG has proposed a €0.44 dividend per share in respect of 2016. If approved by the shareholders of Coca-Cola HBC AG, this dividend will be paid in 2017.

c) Reserves

The reserves of the Group at 31 December were as follows:

	2016 € million	2015 € million
Treasury shares	(70.7)	(132.0)
Exchange equalisation reserve	(801.8)	(681.4)
Other reserves		
Hedging reserve, net	(55.3)	(25.1)
Tax-free reserve	163.8	163.8
Statutory reserves	26.9	20.0
Stock option reserve	87.2	79.1
Available-for-sale financial assets valuation reserve, net	0.7	0.8
Other	21.8	21.8
Total other reserves	245.1	260.4
Total reserves	(627.4)	(553.0)

Treasury shares

Treasury shares held by the Group represent shares acquired following approval of share buy-back programmes, forfeited shares under the equity compensation plan operated by the Group as well as shares representing the initial ordinary shares of Coca-Cola HBC acquired from Kar-Tess Holding. In September 2016 the 3,000,000 treasury shares, acquired as part of the 2015 share buy-back programme for a consideration of €58.5m, were cancelled (refer also to section a) 'Share capital, share premium and Group reorganisation reserve'). As at 31 December 2016, 3,445,060 treasury shares were held by the Group.

Exchange equalisation reserve

The exchange equalisation reserve comprises all foreign exchange differences arising from the translation of the financial statements of entities with functional currencies other than the Euro.

Other reserves

Hedging reserve

The hedging reserve reflects changes in the fair values of derivatives accounted for as cash flow hedges, net of the deferred tax related to such balances.

Tax-free and statutory reserves

The tax-free reserve includes investment amount exempt from tax according to incentive legislation, other tax-free income or income taxed at source.

Statutory reserves are particular to the various countries in which the Group operates. The amount of statutory reserves of the parent entity, Coca-Cola HBC AG, is €nil. During 2016, an amount of €6.9m (2015: €3.0m) was reclassified to statutory reserves relating to the establishment of additional reserves by the Group's subsidiaries.

Other reserves

Other reserves are particular to the various countries in which the Group operates.

Stock option reserve

The stock option reserve represents the cumulative charge to the income statement for employee stock option and performance share awards (refer also to Note 27).

Notes to the Consolidated Financial Statements continued

26. Related party transactions**a) The Coca-Cola Company**

As at 31 December 2016, The Coca-Cola Company indirectly owned 23.2% (2015: 23.1%) of the issued share capital of Coca-Cola HBC. The Coca-Cola Company considers Coca-Cola HBC to be a 'key bottler' and has entered into bottlers' agreements with Coca-Cola HBC in respect of each of the Group's territories. All the bottlers' agreements entered into by The Coca-Cola Company and Coca-Cola HBC are Standard International Bottlers' ('SIB') agreements. The terms of the bottlers' agreements grant Coca-Cola HBC the right to produce and the exclusive right to sell and distribute the beverages of The Coca-Cola Company in each of the countries in which the Group operates. Consequently, Coca-Cola HBC is obliged to purchase all concentrate for The Coca-Cola Company's beverages from The Coca-Cola Company, or its designee, in the ordinary course of business. On 10 October 2012, The Coca-Cola Company agreed to extend the term of the bottlers' agreements for further 10 years until 2023.

The Coca-Cola Company owns or has applied for the trademarks that identify its beverages in each of the countries in which the Group operates. The Coca-Cola Company has authorised Coca-Cola HBC and certain of its subsidiaries to use the trademark 'Coca-Cola' in their corporate names.

The below table summarises transactions with the Coca-Cola Company and its subsidiaries:

	2016	2015
	€ million	€ million
Purchases of concentrate, finished goods and other materials	1,316.2	1,355.0
Net contributions received for marketing and promotional incentives	91.2	89.5
Sales of finished goods and raw materials	10.8	9.1
Other income	4.4	6.6
Other expenses	3.5	4.1
Acquisition of coolers	3.2	–

The Coca-Cola Company makes discretionary marketing contributions to Coca-Cola HBC's operating subsidiaries. The participation in shared marketing agreements is at The Coca-Cola Company's discretion and, where co-operative arrangements are entered into, marketing expenses are shared. Such arrangements include the development of marketing programmes to promote The Coca-Cola Company's beverages. Contributions received from The Coca-Cola Company for marketing and promotional incentives during the year amounted to €91.2m (2015: €89.5m). Contributions made by The Coca-Cola Company to Coca-Cola HBC for price support and marketing and promotional campaigns in respect of specific customers in 2016 totalled €66.0m (2015: €46.2m). Contributions made by The Coca-Cola Company to Coca-Cola HBC for general marketing programmes in 2016 totalled €25.2m (2015: €43.4m) while the contributions of Coca-Cola HBC to The Coca-Cola Company totalled €nil (2015: €0.1m). The Coca-Cola Company has also customarily made additional payments for marketing and advertising directly to suppliers as part of the shared marketing arrangements. The proportion of direct and indirect payments, made at The Coca-Cola Company's discretion, will not necessarily be the same from year to year.

Other income primarily comprises rent, facility and other items. Other expenses related to facility costs charged by The Coca-Cola Company and shared costs included in operating expenses.

In December 2016 the Group sold 50% of its share in its subsidiary Neptūno Vandenys, UAB, to European Refreshments, a subsidiary of TCCC (refer to Note 22).

As at 31 December 2016, the Group had a total amount due from The Coca-Cola Company of €94.3m (2015: €72.4m), and a total amount due to The Coca-Cola Company of €234.6m including loans payable of €nil and non-current payables of €1.2m included in line 'Other non-current liabilities' of the consolidated balance sheet (2015: total payables €216.8m with loans payable €13.5m and non-current payables €nil).

b) Frigoglass S.A. ('Frigoglass'), Kar-Tess Holding and AG Leventis (Nigeria) Plc

Truad Verwaltungs AG currently indirectly owns 44.4% of Frigoglass and 50.8% of AG Leventis (Nigeria) Plc and also indirectly controls Kar-Tess Holding, which holds approximately 23.3% (2015: 23.2%) of Coca-Cola HBC's total issued share capital.

The below table summarises transactions with Frigoglass, Kar-Tess Holding and AG Leventis (Nigeria) Plc:

	2016 € million	2015 € million
Purchases	123.0	120.5
Other expenses	21.4	19.3

Frigoglass, a company listed on the Athens Exchange, is a manufacturer of coolers, cooler parts, glass bottles, crowns and plastics. Frigoglass has a controlling interest in Frigoglass Industries Limited, a company in which the Group has a 23.9% effective interest, through its investment in Nigerian Bottling Company Ltd. Furthermore, during 2015 the Group acquired through its investment in Nigerian Bottling Company Ltd a 23.9% effective interest of Frigoglass West Africa Ltd., a company in which Frigoglass has a controlling interest.

The Group entered into a supply agreement with Frigoglass for the purchase of cooling equipment in 1999. The supply agreement was extended in 2004, 2008 and, most recently, in 2013, on substantially similar terms. Coca-Cola HBC has the status of most favoured customer of Frigoglass, on a non-exclusive basis, provided that it obtains at least 60% (at prices which are negotiated on an annual basis and which must be competitive) of its annual requirements for cooling equipment from Frigoglass. The current agreement expires on 31 December 2018.

During 2016, the Group made purchases of €108.1m (2015: €101.7m) of coolers, cooler parts, glass bottles, crowns and raw and plastics from Frigoglass and its subsidiaries and incurred maintenance and other expenses of €19.6m (2015: €14.8m).

As at 31 December 2016, Coca-Cola HBC owed €32.0m (2015: €23.6m) to and was owed €1.0m (2015: €0.6m) by Frigoglass.

During 2016, the Group purchased €11.9m (2015: €18.8m) of finished goods and other materials from AG Leventis (Nigeria) Plc. In addition, the Group acquired €3.0m of property, plant and equipment (2015: €nil) and incurred rental expenses of €1.8m (2015: €1.7m) and other expenses of €nil (2015: €2.8m) from AG Leventis (Nigeria) Plc.

As at 31 December 2016, the Group owed €2.6m (2015: €1.2m) to and was owed €nil (2015: €1.9m) by AG Leventis (Nigeria) Plc.

c) Other related parties

The below table summarises transactions with other related parties:

	2016 € million	2015 € million
Purchases	90.2	89.0
Other expenses	23.5	24.5

Beverage Partners Worldwide ('BPW')

BPW is a 50/50 joint venture between The Coca-Cola Company and Nestlé. During 2016, the Group purchased inventory from BPW amounting to €88.3m (2015: €82.9m).

As at 31 December 2016, Coca-Cola HBC owed €5.4m (2015: €5.8m) to and was owed €14.9m (2015: €5.4m) by BPW.

Other

During 2016, the Group purchased €0.8m (2015: €3.8m) of raw materials and finished goods and acquired €1.1m (2015: €2.3m) of property, plant and equipment from other related parties. Furthermore, during 2016, the Group incurred expenses of €23.5m (2015: €24.5m) mainly related to maintenance services for cold drink equipment and installations of coolers, fountains, vending and merchandising equipment from other related parties.

At 31 December 2016, the Group owed €0.1m (2015: €0.5m) to and was owed €0.1m including loans receivable of €0.1m (2015: €0.4m including loans receivable of €0.1m) by other related parties.

Notes to the Consolidated Financial Statements continued

26. Related party transactions continued**d) Joint ventures**

During 2016, the Group purchased €42.2m of finished goods (2015: €49.0m) and acquired €nil (2015: €1.2m) of property, plant and equipment from joint ventures. In addition, during 2016 the Group recorded sales of finished goods and raw materials of €12.3m (2015: €11.9m) to joint ventures. Furthermore, the Group recorded other income of €1.6m (2015: €2.5m) from joint ventures. During 2016, the Group sold property, plant and equipment of €2.5m (2015: €nil) to joint ventures.

As at 31 December 2016, the Group owed €34.0m including loans payable of €4.1m (2015: €42.2m including loans payable €17.4m) to and was owed €11.9m including loans receivable of €5.1m (2015: €13.0m including loans receivable of €7.9m) by joint ventures. During 2016 the Group received dividends of €16.5m (2015: €119.6m) from Brewinvest S.A. Group of companies which are included in line 'Net receipts from investments' of the consolidated cash flow statement.

e) Directors

Mr. Anastassis G. David, Mr. Anastasios I. Leventis, Mr. Christos Leventis and Mr. Robert Ryan Rudolph have all been nominated by Kar-Tess Holding to the Board of Coca-Cola HBC. Mr. José Octavio Reyes and Mr. Ahmet C. Bozer have been nominated by TCCC to the Board of Coca-Cola HBC. There have been no transactions between Coca-Cola HBC and the Directors except for remuneration (refer to Note 8).

There are no significant transactions with other related parties for the year ended 31 December 2016.

27. Share-based payments**Accounting policy****Stock option and performance share compensation plans**

Coca-Cola HBC issues equity-settled share-based payments to its senior managers in the form of an employee stock option plan and a performance share plan.

The employee stock option plan is measured at fair value at the date of grant. Fair value reflects the parameters of the compensation plan, the risk-free interest rate, the expected volatility, the dividend yield and the early exercise experience of the Group's plans. Expected volatility is determined by calculating the historical volatility of Coca-Cola HBC's share price over previous years. The fair value determined at the grant date is expensed on a straight-line basis over the vesting period.

The performance share plan offers a specified number of performance share awards that vest three years after the grant. The fair value is determined at the grant date and reflects the parameters of the compensation plan, the dividend yield and the weighted average share price. The fair value determined at the grant date is expensed on a straight-line basis over the vesting period. At the end of each reporting period the Group revises its estimates of the number of shares that are expected to vest based on non-market conditions, and recognises the impact of the revision to original estimates, if any, in the income statement with a corresponding adjustment to equity.

Employee stock purchase plan

The Group operates an employee stock purchase plan, the Employee Stock Purchase Plan, an equity compensation plan in which eligible employees can participate. The Group makes contributions to the plan for participating employees and recognises expenses over the vesting period of the contributed shares. No provision is made for any increase or decrease in value of these shares, as they will vest to employees, and the risks and rewards of fluctuations of the share price are borne by those employees. Any unvested contributions to the plan are recorded on the balance sheet as prepayments.

The charge included in employee costs regarding share-based payments for the years ended 31 December is analysed as follows:

	2016	2015
	€ million	€ million
Stock option awards	3.7	8.7
Performance share awards	4.4	0.1
Employee Stock Purchase Plan	4.6	4.8
Total share-based payments charge	12.7	13.6

Terms and conditions

Stock option plan:

Senior managers are granted awards of stock options, based on performance, potentiality and level of responsibility. Options are granted at an exercise price equal to the closing price of the Company's shares trading on the London Stock Exchange on the day of the grant. Options vest in one-third increments each year for three years and can be exercised for up to 10 years from the date of award. When the options are exercised, the proceeds received, net of any transaction costs, are credited to share capital (at the nominal value) and share premium.

Performance share plan:

During 2015 the Group adopted a performance share plan under which senior managers are granted performance share awards, which have a three-year vesting period and are linked with Group specific key performance indicators. Performance share awards are granted at a price equal to the closing price of the Company's shares trading on the London Stock Exchange on the day of the grant.

Employee Stock Purchase Plan:

The Employee Stock Purchase Plan is administered by a Plan Administrator. Under the terms of this Plan, employees have the opportunity to invest 1% to 15% of their salary in ordinary Coca-Cola HBC shares by contributing to the Plan monthly. Coca-Cola HBC will match up to a maximum of 3% of the employee's salary by way of contribution. Employer contributions are used to purchase matching shares on a monthly basis on the open market, which is the London Stock Exchange. Matching shares vest one year after the purchase. Forfeited shares may be used to meet Plan expenses or for any other purposes relevant to the Plan. Dividends received in respect of shares under the Plan are used to purchase additional shares and are immediately vested to the employees. Shares are held under the Plan Administrator. In order to adapt the Plan to the Greek legal framework, Coca-Cola HBC matches the contribution of employees resident in Greece with an annual employer contribution, of up to 5% of the employee's salary in December of each year, which vest immediately.

Stock option activity

The Group has not issued any new stock options in 2016 or 2015.

The following table summarises information regarding outstanding stock options exercisable at 31 December 2016:

	Exercise price (EUR)	Exercise price (GBP)	Vesting status as at 31 Dec 2016	Vesting dates for further increments	End of period	Number of stock options outstanding
2005 December Grant	13.19	11.24	fully vested	–	31.12.2020 ¹	250,001

2007 December Grant	26.41	22.51	fully vested	–	12.12.2017	1,147,200
2008 December Grant	9.02	7.69	fully vested	–	10.12.2018	719,100
2009 December Grant	15.70	13.38	fully vested	–	09.12.2019	1,142,000
2010 December Grant	19.31	16.46	fully vested	–	08.12.2020	1,492,501
2011 March Grant	18.53	15.79	fully vested	–	15.03.2021	18,334
2011 December Grant	11.98	10.21	fully vested	–	15.12.2021	1,038,339
2013 June Grant	–	15.00	fully vested	–	20.06.2023	1,278,000
2013 December Grant	–	16.99	fully vested	–	09.12.2023	1,525,000
2014 December Grant	–	13.33	two thirds	10.12.2017	09.12.2024	1,532,834
Total						10,540,809

1. Relates to stock options granted under the previous stock option plan which expire in December 2020 and 2021 respectively.

Notes to the Consolidated Financial Statements continued

27. Share-based payments continued

A summary of stock option activity in 2016 under all plans is as follows:

	Number of stock options 2016	Weighted* average exercise price 2016 (EUR)	Weighted average exercise price 2016 (GBP)
Outstanding at 1 January	12,337,506	19.76	14.56
Exercised	(1,499,341)	14.56	12.40
Expired	(271,687)	20.29	17.28
Forfeited	(25,669)	16.82	14.32
Outstanding at 31 December	10,540,809	17.38	14.80
Exercisable at 31 December	10,019,308	17.46	14.87

A summary of stock option activity in 2015 under all plans is as follows:

	Number of stock options 2015	Weighted* average exercise price 2015 (EUR)	Weighted average exercise price 2015 (GBP)
Outstanding at 1 January	12,925,795	18.51	14.49
Exercised	(322,050)	15.47	11.40
Expired	(35,062)	22.52	16.60
Forfeited	(231,177)	20.14	14.84
Outstanding at 31 December	12,337,506	19.76	14.56
Exercisable at 31 December	10,276,017	19.73	14.54

* For convenience purposes, the prices are translated with the closing exchange rate.

Total proceeds from the issuance of the shares under the stock option plan in 2016 amounted to €21.6m (2015: €5.1m).

The weighted average remaining contractual life of share options outstanding under the stock option compensation plans at 31 December 2016 was 4.8 years (2015: 5.3 years).

Performance shares

A summary of performance share plan activity is as follows:

	Number of performance shares 2016	Number of performance shares 2015
Outstanding at 1 January	652,159	–
Granted	716,269	652,159
Forfeited	(4,436)	–
Outstanding at 31 December	1,363,992	652,159

The fair value for the 2016 performance share plan is £13.50m (2015: £13.84m). The weighted average remaining contractual life of performance shares outstanding under the performance share plans at 31 December 2016 was 2.2 years (2015: 3.2 years). Relevant inputs into the valuation are as follows:

	2016	2015
Weighted average share price	£14.34	£14.70
Dividend yield	2.0%	2.0%
Weighted average exercise period	3.0 years	3.3 years

28. Contingencies

In relation to the Greek Competition Authority's decision of 25 January 2002, one of Coca-Cola Hellenic Bottling Company S.A.'s competitors has filed a lawsuit against Coca-Cola Hellenic Bottling Company S.A. claiming damages in an amount of €7.7m. The court of first instance heard the case on 21 January 2009 and subsequently rejected the lawsuit. The plaintiff has appealed the judgement and on 9 December 2013 the Athens Court of Appeals rejected the plaintiff's appeal. Following the spin off, Coca-Cola HBC Greece S.A.I.C. substituted Coca-Cola Hellenic Bottling Company S.A. as defendant in this lawsuit. Coca-Cola HBC Greece S.A.I.C. has not provided for any losses related to this case. The defendant has not filed for a cessation of the decision within the relevant deadline set by law, therefore the decision of the Athens Court of Appeals is final and irrevocable and the case has closed. On 19 April 2014, the same plaintiff filed a new lawsuit against Coca-Cola Hellenic Bottling Company S.A. (following the spin-off, Coca-Cola HBC Greece S.A.I.C.) claiming payment of €7.5m as compensation for losses and moral damages for alleged anti-competitive commercial practices of Coca-Cola Hellenic Bottling Company S.A. between 1994 and 2013. The two lawsuits partially overlap in the time period for which damages are sought by the plaintiff. The hearing of the new lawsuit is now scheduled for 17 January 2019. Coca-Cola HBC Greece S.A.I.C. has not provided for any losses related to this case.

On 1 February 2012, the Greek Competition Commission conducted an inspection of Coca-Cola Hellenic Bottling Company S.A.'s (following the spin-off, Coca-Cola HBC Greece S.A.I.C.) operations as part of an investigation into our commercial practices in recent years into the sparkling, juice and water categories. In April 2016, Coca-Cola HBC S.A.I.C. was officially informed by the Greek Competition Commission on the closure of this audit. On 6 September 2016, the Greek Competition Commission initiated a new audit of Coca-Cola HBC Greece S.A.I.C.'s operations as part of a further investigation into certain commercial practices in the sparkling, juice and water categories. Coca-Cola HBC Greece S.A.I.C. has a policy of strict compliance with Greek and EU competition law and it is co-operating fully with the Greek Competition Commission.

In 1992, our subsidiary Nigerian Bottling Company ('NBC') acquired a manufacturing facility in Nigeria from Vacunak, a Nigerian company. In 1994, Vacunak filed a lawsuit against NBC, alleging that a representative of NBC had orally agreed to rescind the sale agreement and instead enter into a lease agreement with Vacunak. As part of its lawsuit Vacunak sought compensation for rent and loss of business opportunities. NBC discontinued all use of the facility in 1995. On 19 August 2013, NBC received the written judgement of the Nigerian court of first instance issued on 28 June 2012 providing for damages of approximately €26.0m. NBC has filed an appeal against the judgement. Based on advice from NBC's outside legal counsel, we believe that it is unlikely that NBC will suffer material financial losses from this case. We have consequently not provided for any losses in relation to this case.

The tax filings of the Group and its subsidiaries are routinely subjected to audit by tax authorities in most of the jurisdictions in which the Group conducts business. These audits may result in assessments of additional taxes. The Group provides additional tax in relation to the outcome of such tax assessments, to the extent that a liability is probable and estimable.

The Group is also involved in various other legal proceedings. Management believes that any liability to the Group that may arise as a result of these pending legal proceedings will not have a material adverse effect on the results of operations, cash flows, or the financial position of the Group taken as a whole.

Notes to the Consolidated Financial Statements continued

29. Commitments

Accounting policy

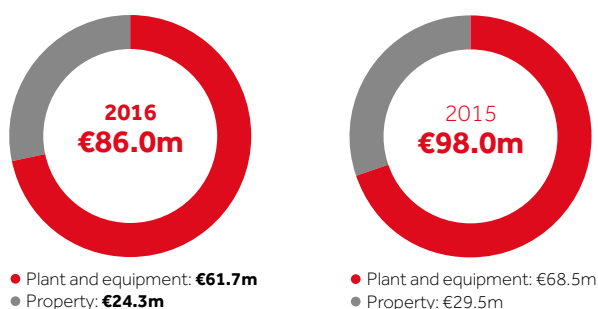

Leases of property, plant and equipment not classified as finance leases are classified as operating leases. Rentals paid under operating leases are charged to the income statement on a straight-line basis over the lease term.

a) Operating leases

The total of future minimum lease payments under non-cancellable operating leases at 31 December was as follows:

	2016 € million	2015 € million
Less than one year	33.3	44.2
Later than one year but less than five years	80.4	98.5
Later than five years	12.1	17.2
Future minimum lease payments	125.8	159.9

The total operating lease charges included within operating expenses for the years ended 31 December were as follows:

b) Capital commitments

As at 31 December 2016, the Group had capital commitments amounting to €84.9m (2015: €70.5m). Of this, €1.6m related to the Group's share of the commitments arising from joint operations (2015: €nil). The Group's share of the commitments arising from joint ventures are disclosed in Note 15.

c) Long-term commitments

As at 31 December 2016 the Group had commitments to purchase raw materials and receive services amounting to €510.6m (2015: €542.8m). Of this, €0.5m related to the Group's share of the commitments arising from joint operations (2015: €nil). The Group's share of the commitments arising from joint ventures are disclosed in Note 15.

30. Post balance sheet events

During the first months of 2017 the Group incurred €1.2m of restructuring costs before tax in its Established markets. On 16 March 2017 the Board of Directors granted 824,074 performance share plan awards under the performance share plan, which have a three-year vesting period.
