

MISSION SUSTAINABILITY: SOURCING 100% OF ELECTRICITY

FROM CLEAN AND RENEWABLE ENERGY (IN EU & CH)

LOWERING OUR EMISSIONS IS A KEY PRIORITY

DID YOU KNOW THAT OF ALL THE ELECTRICITY USED IN THE WORLD, **TWO-THIRDS IS CONSUMED BY COMMERCIAL AND INDUSTRIAL COMPANIES?** IT FOLLOWS THEN THAT SWITCHING INDUSTRY TO RENEWABLE AND CLEAN ENERGY IS CRITICAL TO SPEEDING THE TRANSITION TO A LOW-CARBON ECONOMY.

1.

IN 2017,
42% OF THE ENERGY
USED IN OUR EU AND
SWISS PLANTS CAME
FROM RENEWABLE
SOURCES

AND WE HAVE
8 SITES
USING ELECTRICITY
FROM CO-GENERATION.

2.

LAST YEAR,
10 PLANTS OUT
OF OUR 26 IN THE
EU AND SWITZERLAND
WERE USING
**100% RENEWABLE
AND CLEAN
ELECTRICITY**

AND DURING
2018 MORE
BEGAN TO MAKE
THE SWITCH

3.

OUR EDELSTAL
PLANT IN AUSTRIA,
HAS A LONG-TERM
RENEWABLE-ELECTRICITY
SUPPLY CONTRACT FOR
100% OF ITS ELECTRICITY.
THIS PREVENTS ALMOST
**4,000 TONS OF
CO2 EMISSIONS
EACH YEAR.**

AT COCA-COLA HBC,
WE USE ABOUT
785 MILLION KWH
OF ELECTRICITY IN OUR
PRODUCTION PLANTS.
